

ARE SEARCHING FOR MURDERERS OF DEAD WOMEN

RUSSIAN SEEN WITH DEAD WOMAN PREVIOUS TO DEATH IN CUSTODY.

ARRESTED ONE SUSPECT

Husband's Father Thinks His Son Has Been Killed Also and Body Concealed.

Como, Italy, June 11.—A Russian named Isopoloff, who was seen in company with Mr. and Mrs. Charlton, has been arrested in connection with the mysterious death of the woman whose body was found yesterday in a trunk taken from the lake.

The husband is still missing and the police say that a suspect whom they are anxious to find has gone to Switzerland, but they give no indication as to who he is.

IS HUSBAND DEAD?

Washington, D. C., June 11.—Paul Charlton, a law clerk in the bureau of interior affairs at the war department, and father-in-law of Mrs. Mary Scott Charlton, whose body was found in a trunk fished out of Lake Como, Italy, believes his son was also murdered. He says the couple were much devoted to each other and intimates one of Mrs. Charlton's former admirers followed them to Italy and is the instigator of the tragedy.

BIG INCREASE TO PUBLIC DOMAIN

President Taft Approves Step in Re-Classification of Public Lands Which Adds Thousands of Acres.

Washington, D. C., June 11.—By approving the latest step in the re-classification of the national forests and public lands today, President Taft increased the public domain available to homestead entry to 1,182,816 acres and increased national forests to 381,094 acres. Re-classification is the government's hope of stemming the tide of emigration from the United States to the Canadian north-west.

GIVEN PERMISSION TO INCREASE RATES

Badger Telephone and Telegraph Company Can Raise Its Rates.

Madison, Wis., June 11.—In the matter of the application of the Badger Telephone and Telegraph company of Janesville to increase certain toll rates, the State Railroad Commission this morning handed down an order giving the company authority to increase the rate on all messages into and out of Beloit five cents.

MILWAUKEE CRIMINAL DIED IN THE PRISON

Man Convicted for Black Hand Work Is Found Dead in His Cell Today.

Waupun, Wis., June 11.—Joseph Higgis, a Milwaukee Italian, sentenced to prison for a three year term for Black Hand operations, died during last night of heart failure, after serving one month of his sentence. He was found dead in his cell this morning.

AD WOLGAST IS NOT VERY BADLY INJURED

His Defeat by Redmond Last Night Due to Over-Confidence and Lack of Training.

Milwaukee, June 11.—The condition of Ad. Wolgast, who injured his arm in last night's fight is good today. He has a misplaced tendon, which will not trouble him more than a few days. His defeat by Redmond was due to poor condition and over-confidence.

MANITOWOC FARMER STRUCK SMALL BOY

Slashed Him With a Whip and He May Die From the Wounds Received.

Manitowoc, Wis., June 11.—Police are looking for a farmer alleged to have struck Wallace Hubcock, aged 10, across the face with a whip, inflicting serious and perhaps fatal injuries. Young Hubcock had his face cut open the entire length of the cheek and the back of his head was also lacerated.

"MOTHER INSTINCT" AN ANTIQUE NOTION

Modern Mother Must Enter Politics to Get Laws for Children, Say Speakers at Mother's Congress.

Denver, Colo., June 11.—"The idea that the so-called 'mother's instinct' can teach a woman to raise a child in an antique delusion. The modern mother must enter politics if she wishes to get pure food laws for her child." These were some of the ideas advanced at the Congress of Mothers today.

SUPPOSED TRAMP IS WANTED ELSEWHERE

Identified As Having Escaped From Rochester, Minnesota Asylum.

Madison, Wis., June 11.—An George Wilson, a supposed tramp, was leaving the municipal court room this morning after being given ten minutes to get out of town. Herbert Patterson of Rochester, Minn., recognized him as the man who escaped from the insane asylum at Rochester two years ago. Patterson said he saw the chief of police and with a brother attended a session of court. When Wilson reached the police station after the trial on a charge of vagrancy to get a knife and other articles taken from his pockets when he was arrested he was locked up on telephone orders from the chief and will be held pending information from Rochester.

EXPECT GOVERNOR TO ACT ON QUESTIONS

District Attorney of Marinette County Was Suspended by Gov. Davidson.

Madison, Wis., June 11.—District Attorney A. E. Schwitzky of Marinette Co. was today suspended by Gov. Davidson and a temporary prosecutor appointed. Schwitzky is subject to disbarment proceedings and a libel suit, and has also figured in an assault and battery case with Edward Lettby, a member of the assembly and editor of the Marinette Eagle-Star, who accused before the county board against the employment of a stenographer for Schwitzky. J. H. McGowan of Green Bay is appointed to the office temporarily.

EVEN CHAFIN DOES NOT FAVOR THE LAW

Former Prohibition Candidate for President Against County Option Law.

Beloit, June 11.—Taking a rap at county option is the solution of the saloon question, Eugene W. Chafin, former prohibition candidate for the presidency, asked in a lecture, "Would you have a county option law for license, bignamy, for slavery?" Mr. Chafin said congress had not settled one big question in 120 years. Former President Roosevelt had clubbed his brains out, he declared, and President Taft had been able to accomplish nothing—by, opposite methods. He paid a tribute to the insurgents.

AFFINITIES HAVE AN IMPORTANT PART

Sensational Divorce Case Is on in Kenosha—Both Husband and Wife Claim Violation of Marriage Vows.

Kenosha, Wis., June 11.—A sensational divorce case is on trial here in which both the husband and wife are accused by the alleged existence of affinities. A. W. Huda is suing his wife, Carrie, naming Carl Peterson of Wagner, Wis., as co-defendant. The wife's answer alleges that Mrs. Mary Peterson of Kenosha is too friendly with her husband. The young children are the witnesses for both husband and wife.

"JUMBO" STIEHM IS NOT SELECTED

Will Not Be the Head of the Ripon College Athletics As Has Been Predicted.

Ripon, Wis., June 11.—Formal denial was issued today that Prof. E. W. Luehring, director of athletics at Ripon college, has resigned and that "Jumbo" Stiehm, the University of Wisconsin star, has been appointed in his place. Dean Erickson has issued a statement that Stiehm has been considered for the position but it is not certain that Luehring will leave.

MUSICAL FESTIVAL SUNDAY AFTERNOON

Northwestern University Graduation Exercises Will Begin Sunday Afternoon.

Watertown, Wis., June 11.—A musical festival Sunday afternoon will be an important part of the Northwestern University commencement exercises. The college band and orchestra will accompany the following soloists: Male choruses from Mayville, Janesville, and Watertown, and mixed choruses from Janesville, Watertown, Columbus, Jefferson, Watertown, and Oconomowoc. There will be four hundred voices rendering church songs in unison.

GRAND ARMY ASKED TO OBSERVE ORDER

Frank A. Walsh Asked Grand Army Post to Display Flags on Flag Day.

Milwaukee, June 11.—Newly elected G. A. R. Department Commander Frank A. Walsh today issued a request to all posts in the state to display their flags on Flag Day and also to all members to observe the day by raising flags either at their homes or their places of business.

DETROIT WELCOMES 5,000 SKAT PLAYERS

Devotees of Great German Come From Large Cities of East and Middle West Flock to Tourney.

Detroit, Mich., June 11.—A card party with over 5,000 players at the tables is to be one of the big features of the twelfth annual congress of the North American Skat League, which will hold forth here during the next two days. Over 500 devotees of the great German game are here from Chicago alone, and Milwaukee, New York, Buffalo, Cleveland, Kansas City, Indianapolis and numerous other large cities of the country are represented by large delegations.

BIXBY NOW CHIEF OF THE ENGINEERS

Brigadier General W. L. Marshall, Head of This Army Department Since 1908, Retired Today.

Washington, D. C., June 11.—Brig. Gen. William L. Marshall, who has been chief of engineers of the army since July, 1908, was placed on the retired list today on account of age. General Marshall leaves behind him a brilliant record in the service. Born in Kentucky in 1816, he served through the civil war as a private and after the close of the war attended the West Point academy, graduating in 1865. After serving as an instructor at West Point for two years he had charge of various expeditions and engineering projects in the far West. On one of his expeditions in 1873, he discovered "Marshall's Pass" across the Rocky Mountains, and two years later he discovered the gold placers of Marshall Pass, San Miguel River, Colorado. In later years General Marshall was in charge of the construction of levees along the Mississippi and of harbors and river improvements in various sections of the country. He is also known as the inventor of movable dams, lockgates and valves.

FOREST FIRES AGAIN MAKING APPEARANCE

Minnesota Forests Are On Fire and the Loss Will Be Very Heavy According to Reports.

Duluth, Minn., June 11.—Forest fires are again working havoc in Minnesota. All the buildings at the Knox location in Aurora have been destroyed and fires are raging over a big tract north of Two Rivers.

MEXICAN TROOPS IN YUCATAN CAMPAIGN

Drive the Indians Into the Mountains and Will Crush Out the Rebellion.

Mexico City, Mexico, June 11.—After driving the Indian insurgents from their stronghold at Valladolid, the federal troops have followed the rebels into the mountains where the uprising may be finally crushed.

ALL STOCKS WEAK AT OPENING TODAY

Railroads and Industrials Show Decided Weakness on Opening Prices.

New York, June 11.—Pronounced weakness was displayed in all the active railroad and industrial stocks at the opening of the stock market today.

WILL BE SENTENCED ON AUGUST 30 NEXT

Charles R. Heike Will Be Given Until That Time to Perfect His Appeal.

New York, June 11.—Sentence will be imposed on Charles R. Heike, secretary of the sugar trust, August 30, when their counsel will have perfected plans for appeal.

REWARD OFFERED BY STATE FOR CAPTURE

Of the Man Who Murdered James Hardy, Wife and Son Last Sunday Night.

Des Moines, Iowa, June 11.—Governor Carroll today offered a reward of \$300 for the arrest and conviction of the murderer of James Hardy, his wife and son at Van Cleave, Iowa on Sunday night. The surviving son, has been released and the officers are without clue.

ADLINE GENEVIE IS WEDDED IN LONDON

Danish Dance—Becomes Bride of English Solicitor—Reception at Duke of Newcastle's Home.

London, June 11.—Society and the stage were both represented in the assemblage which filled St. Margaret's Chapel today at the wedding of Miss Adeline Genevieve, the wonderful Danish dancer who recently finished her American tour, and Mr. Frank S. N. Isitt, a prominent London solicitor. Following the wedding ceremony a reception was given for the bride and party and guests at the town house of the Duke and Duchess of Newcastle, whose intimate friend and legal adviser Mr. Isitt has been for many years.

SMALL BOY SAVED A CROWDED INTERURBAN

Discovered Bridge Near Beloit on Fire and Notified the Motor-men of Car.

Beloit, June 11.—The possible destruction of an interurban railway car loaded with human beings was narrowly averted last night when some boys discovered that the bridge over Rock river between Beloit and Janesville was afire. A few pails of water quenched the blaze. Just as the south-bound car arrived at the bridge. The origin of the fire is unknown.

MADDERN AND HENDERSON NUPTIALS IN CHICAGO

Chicago, June 11.—The marriage of Miss Mabel Madden, daughter of Congressman and Mrs. M. B. Madden, and Mr. Paul Henderson took place this afternoon at the summer residence of the bride's parents, "Castle Eden," near Elmhurst. The bride was attended by Miss Lione Adelt of Albany, N. Y., and the best man was M. Lionel Gardner of this city.

INJUNCTION DENIED PULLMAN COMPANY

Motion to Prevent Lowering of Rates Turned Down By Federal Court.

Chicago, Ill., June 11.—The motion of the Pullman company and the Great Northern Railroad for a preliminary injunction to prevent the lowering of sleeping car rates by the Interstate Commerce Commission, was denied by Judge Grosscup, Baker and Seaman in the United States Circuit Court here today.

DEATH SENTENCE STANDS IN EGYPT

Student Who Killed the Egyptian Premier and Minister of Foreign Affairs Must Die.

London, June 11.—Official advices from Cairo, Egypt, state that the court of Cassation there today confirmed the sentence of death imposed upon Student Wardani, who shot and killed Houtros Pacha Chali, Egyptian premier and minister of foreign affairs.

ALPHONSO TROUBLED WITH TUBERCULOSIS

Young King of Spain Said To Be Afflicted With Dread Disease in Throat—Is Incurable.

Madrid, June 11.—Despite all official denials, it is now generally accepted that King Alfonso has tuberculosis of the throat. His ailment is believed incurable.

CITY IS SWEEP BY FLAMES AND VERY SEVERE STORMS

Seattle Loses Millions by Conflagration and Twenty-Three Men Were Buried in Ruins.

Seattle, Wash., June 11.—Fire that broke out on the northern waterfront during a hurricane last night was carried by the wind to a district, thickly covered by wooden buildings and in a short time twenty acres were ablaze, causing the loss of a million dollars and driving five hundred people homeless into the streets. Twenty-three persons are believed to be dead. Twenty of the persons reported dead are believed to have killed when the fire destroyed a row of lodging houses. A fire engine was abandoned by its crew and the three men are reported to have taken refuge in a building which later collapsed. The fire started in a warehouse at midnight, and a gale spread the flames with alarming rapidity.

Y. M. C. A. HOLDING FIELD MEET TODAY

Beloit and Clinton Teams Are Holding Duel Meet There This Afternoon.

THE COAL SAVING FURNACE

There is no doubt that a good number of people in Janesville had considerable furnace trouble last winter, and besides burned up more coal than necessary.

If you would avoid unnecessary trouble and expense, have the Peck-Williamson Underfeed Furnace installed in your basement this summer and be prepared to meet cold weather this winter in a perfectly secure way.

MANY CHANGES ARE MADE BY RAILROAD

Janesville to Have Several New Summer Trains on the North-Western.

Radical changes in the passenger train schedules on every division of the North-Western railway running into this city have been announced and will become operative tomorrow. Not for many years have the schedules been changed to such an extent throughout the entire system and these changes affect many of the trains most used by patrons of the road in this city.

While the schedules on all three divisions have been altered, time tables for but two, the Madison and Wisconsin divisions, have been received and in consequence what changes have been made on the Northern Wisconsin division are not known. The purpose of the company in re-making the schedules by instituting new trains and changing the time on numerous others, is to give both through and local trains instead of making local trains do the work in the past and also to cut down the time between Chicago and Minneapolis.

Under the ruling which goes into effect tomorrow, trains 510, 518 and 524, will only make one stop between this city and Chicago, at Harvard, and only four stops between Minneapolis and Chicago, Eau Claire, Elroy, Madison, Janesville and Harvard, which cuts out Evanston. This makes it possible to cut down the time between these points very considerably. In every case, local trains have been put on to care for the short haul traffic.

Following is a list of the trains running through Janesville which have been affected by the new schedules, but patrons will be compelled to take into consideration that the Northern Wisconsin division has yet to be heard from and that changes have also been made in trains leaving for points throughout the country from Chicago and other main passenger terminals.

Train 510, for Chicago, due here from the north at 8:40 a. m., will be changed to 7:45 and will stop only at Harvard.

Train 518, which was abandoned last December, will be placed in service again, leaving here for Chicago at 9:25 and making local stops.

Train 517, abandoned last December, will be put in service again and will arrive from Chicago for North Dakota points via Detroit at 11:20 a. m.

Train 501, for Minneapolis, which arrives here from Chicago at 11:50, will come via Clinton instead of the full and will stop only at Harvard, Janesville, Madison, Elroy and Eau Claire.

Train 504, for Chicago, which arrives here from Minneapolis at 6:55, will arrive at 4:35 and will stop at Harvard.

Train 516, abandoned last December, will again be placed in service and will leave for Chicago, making local stops, at 7 p. m.

Train 513, for the north, which is made up here, will be made up in Chicago, leaving there at 1:15 p. m. and arriving at Janesville at 4:15 p. m., and leaving at 4:20 p. m. as heretofore.

Train 315 known as the DeKalb passenger, which now arrives at 4:15 p. m., will arrive at 2:40 p. m.

Train 51, from Janesville to Footville, which leaves here at 11:05 a. m., will leave at 10:35 a. m.

Train 521, arriving here at 11:40 a. m. from Chicago via Clinton, will arrive at 11 a. m., and leave for Fond du Lac at 12:55 noon.

WARM WEATHER IS AIDING THE CROPS

Tobacco Growers Report That the Crop Outlook is Now Much Improved.

According to the Edgerton Tobacco Reporter, a return of warmer weather and more favorable growing conditions have improved the prospects of the tobacco beds wonderfully during the week. The young plants have been making good progress of late and while planting has been started on quite a good many fields the work will hardly become general until next week. There seems to be an abundance of plants everywhere though somewhat under size in many localities.

There is but little doing in the marketing of cured leaf except by occasional transactions. A 25c lot of assorted '09 was delivered to Underhill on Friday. People riding the growing districts assert that the crop is now as well gathered up from country hands as any of the recent years. Quite a quantity of the unsold remnants have been sent to Equity warehouses recently for handling. The market for old leaf remains quiet. We learn of the sale of about 150c of '06 by local peddlers this week, though the movements are invariably of small lots. There is considerable warehouse handling yet to be done before the close of the season.

The shipments out of storage reach 618 cases and four carloads from this market to all points for the week. Since last report ten carloads have been received.

A BOY'S HOLIDAYS
The urgent controversy which has been waging in England and America concerning the best way to dispose of school boys in the long summer vacation has prompted the Grand Trunk Railway system to issue a special publication giving suggestions and practical hints to parents as to what to do with the school-boy during the months of July and August. The vacation camp is one of the solutions and the publication entitled, "What Shall a Boy Do With His Vacation?" thoroughly covers the ground. A copy may be obtained for the asking by applying to W. S. Cookson, 917 Merchants Loan & Trust Building, Chicago.

Augury by a Rabbit.
Every year at Arkatgud the local god, Narashimawami, is taken in procession to a building outside the town and there a rabbit caught beforehand is touched by the spectators and set at liberty. If the rabbit turns toward the town it is regarded as an ill omen foreboding some calamity.—Madras Mail.

COMMENCEMENT AT SEMINARY IS ENDED

Final Program Given Thursday Evening and Graduating Class At Evanston School Received Diplomas.

(Special to the Gazette.)

Evanston, June 10.—The annual commencement of the Evanston Seminary came to a conclusion last evening when the graduating class of 1910 gave their program and received their diplomas. The work has been filled with exercises of an educational nature and closes one of the busiest and most successful years in the history of the school. On Sunday, June 5th, Rev. A. L. Whitcomb gave the dedicatory sermon and spoke from the text, "Ye, doubtless, and I count all things but loss for the excellency of the knowledge of Christ Jesus My Lord." A large audience was present and all pronounced the sermon a masterly effort and his words of inspiration will not soon be forgotten. Monday evening the Phoenix Literary society gave their commencement entertainment. On Tuesday evening the class exercises were given by the Senior class assisted by the Phoenix Literary society.

Superintendent C. Watson gave the Senior address and Victor Tullis the Junior reply. Harold B. Lewis made the presentation speech and the remainder of the program consisted of demonstration in physics, impromptu, a reading and a dialogue interspersed with good music. The Alumni banquet and reception was given Wednesday evening and between fifty and sixty guests sat down to a four-course dinner served by Mr. and Mrs. Geo. Butterfield at the Central hotel. It was a very happy gathering and reunion, for there were many present from all distances. A number of them were on the program and all gave entertaining talks which were full of praise and good words for their Alma Mater. Miss Martha Andrews presided as toastmistress and a violin solo by Miss Maudie Combs preceded the following program of toasts: "The Seminary Then and Now"—Eugene Millard of Beaver Dam; "Homelessness of Seminary Life"—Frank R. Green, Black Earth; "Seminary Stories"—Mrs. Robert Tompkins, Chicago; "The Future of the Seminary"—Rev. B. D. Fay.

Others who were called upon for speeches were George Elmer Coleman, Perry Center, New York; Prof. James Rolph, Everett, Wash.; and Rev. W. G. Hammer, president of board of trustees, Evanston, Ill. The banqueters then joined in singing the school song and Rev. E. J. Roberts conferred the benediction. At the close of the gathering the business meeting of the Alumni Association was held and officers for the ensuing year were elected as follows: President, Rev. B. D. Fay; Vice-President, Miss Fannie Pawley; Secretary, Miss Myrtle Green; Treasurer, Miss Florence Lewis. The graduating exercises were given Thursday evening. The chapel was used for the occasion and was tastefully decorated in purple and white, the class colors. Miss Fieda Johnson gave the salutatory and Miss M. Eleanor Baldwin was valedictorian. The exercises were all of a high order, showing thorough preparation and were well delivered. The diplomas were presented to the graduates by Rev. Anna L. Burton and Rev. W. G. Hammer, president of board of trustees gave a short address. Vocal and piano music by the Misses Fannie Pawley, Lou Howard and Miss Hynes added to the enjoyment of the evening's program. At a meeting of the board of trustees held during the week, Rev. A. L. Whitcomb of Edgerton, was elected president of the school and Mrs. Whitcomb presided for the coming year and Miss Mary Green as teacher of French and German. With these exceptions the faculty will remain unchanged.

Among those from out of town who were here to attend commencement exercises were Mr. and Mrs. James Rolph, Everett, Wash.; Mrs. Lee Munns, Aurora, Ill.; Mrs. Robert

Templeton, Chicago; Rev. D. O. Ditzman, Portland, Center; Eugene Millard, Beaver Dam; Mr. and Mrs. Frank Green, Black Earth; George Coleman, Perry Center, N. Y.; Miss Edith Benway, Chicago; Miss Maudie Kiltz, Woodstock, Ill.; and Rev. Hammer of Evanston, Ill.

Elegant Merry Wedding.
At the home of Prof. and Mrs. H. H. Gubbs, a wedding took place last evening which was nearly as interesting to the Seminary people as the graduating exercises. Miss Lucille H. Balkens, who has been preceptress and teacher of mathematics at the Seminary, was the bride, and the groom was Glenn N. Morry of Evanston, Ill. Rev. Eaten of Baltimore, the bride's father, performed the ceremony which united this worthy couple. Mr. and Mrs. Morry left on the midnight train for their wedding trip.

Local News.
John Robinson is in Denver, Colorado, to attend a sale of fine stock which takes place there today. He took with him a carload of thoroughbred short horn and hereford cattle. George Munge received the appointment this morning as mail carrier, to succeed Merrill Agnes on route No. 18. It is understood that Mr. Munge is to have a new automobile for his use in delivering mail.

Mr. and Mrs. Howard Thomas were here yesterday as the guests of Mr. and Mrs. M. L. Paulson, whose little daughter, Thelma, accompanied them home for a week's visit. Mrs. Charles Howard went to Merrill, Wis., yesterday to spend two weeks with a brother.

Mrs. H. A. Langemann and Mrs. V. A. Astell will entertain at a "Merry-go-round" at the farmer's home this evening.

BROODHEAD.
Broodhead, June 10.—Mr. and Mrs. J. B. Pierce and children, Master Charles Marshall and Miss Marjorie Roderick left on a camping vacation at Hungen, Wis.

C. A. Conway of Antigo, Wis., Grand Chancellor of the Knights of the Pythias of the state, visited Pearl Lodge No. 81 of this city on Thursday evening.

Miss Jessie Blackford of Juda, visited Broodhead relatives on Friday.

Mrs. J. W. Branger spent Friday in Janesville.

Albert Roderick and daughter, May, left on Friday for points in Iowa for an extended visit.

Master Down Smith of Monroe, came down from that city on Friday to visit friends in Broodhead.

Albert Kessey and Elmer Burdette of Orlanville, were in Broodhead Friday.

Mrs. John Nesman and daughter, Martha, of Rockford, are guests of Broodhead friends.

Forrest Heath of Janesville was here to attend commencement exercises Thursday.

Ole Boyum of Sun Prairie, is here for a short stay with his brother and sister at the bakery. Ole is now dealing in tobacco.

Miss Mollie Root returned Friday to Milton after some days spent here. She will return in July to attend summer school.

The funeral of Miss Dora Gless took place today at the residence in Spring Grove.

(Rev. Foster and Dungan, Messrs. Jackson and Stair and W. R. Skinner attended the Green County Sunday school convention in Albany on Friday. They report most excellent meetings.

Flight of Hawk and Rook.
A rook can fly 50 miles an hour, a hawk 150 miles.

How's This?
We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

WALDO, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

WE MAKE PIANO BUYING EASY

It is not difficult to choose a satisfactory instrument when you have so many to choose from as we can show you.

Our collection is so complete that you can hardly find a piano that will fail to satisfy you in tone quality and case design.

We have simplified your problem of buying, not only by providing such a large assortment of instruments, but also by adapting the Ono-Price System.

Every piano you see in our salesroom is marked with a selling price, which is the same to all purchasers of that grade of instrument.

Consequently we are enabled to deal fairly with all patrons by selling at actual values giving none a reduction not received by others.

Payment need not be made in full at the time of purchase. Any of our pianos may be bought on monthly installments.

Our delivery system enables us to place instruments in purchasers' homes without delay.

If, therefore, you wish to purchase to the best advantage call and see our offerings.

Wisconsin Music Company

Pianos of Quality

Women Want Curfew Revived.

A movement is being started by the women's clubs and societies in Boston in favor of a revival of the old curfew law. At the ringing of the city bells at nine o'clock, it is suggested, all boys and girls under 16 years old should be required to be in their own homes unless under suitable guardianship, and their discovery on the street should lead to the lining of their parents. The movement so far has not got beyond the stage of semi-private agitation among the leaders of the reform element, but strong efforts are being made to attract general interest and to make it a popular issue.

Daysey Mayme.

Daysey Mayme Appleton has a heart that responds quickly to every appeal for charity. "The prizes I won at card parties," she explains, "come in handy in giving to the sickly and needy."—Arlington (Kan.) Globe.

It's our business to sell Dry Goods cheap for cash, and we are attending strictly to business.

BORT, BAILEY & COMPANY

TIRES THAT WON'T BLOW OUT

Federal Tires Made in Milwaukee By the Dutch

Made in standard clincher, quick detachable, and cross country type anti-skid.

All Federal Tires are made on the well known, wrapped tread principle—the most scientific manner of putting a tread on a tire. The tread is the toughest and most durable rubber obtainable, and after being treated by our own special process, actually gives more miles of service than any other tire on the market.

The fabric in Federal Tires is not subjected to a red hot iron core inside of an iron mold—it is not burned to death. But, instead, is cured on an air bag—curved in the open heat, and all the original life and elasticity of the rubber is retained.

The many and continued successes of Federal Tires are due entirely to the new and altogether different principles employed in their manufacture.

Federal Tires have more mileage in them than any other on the market—NONE EXCEPTED. They will stand more hard usage on bad roads; they will stand more heat and they won't expand when they are driven at a high rate of speed; they are made of higher grade materials and by the most expert workmen in the country.

On account of their method of manufacture they positively WILL NOT BLOW OUT.

Federal tires are expanded by the use of an air-bag at one hundred and fifty pounds pressure to every square inch of surface.

Federal Tires are known as the tires that "Won't Blow Out." Try one—use it in competition with your favorite tire of today—give it as hard a trial as possible—you will change your idea of tire service if you do.

SOLD ONLY BY US.

We are authority on tire and tire repairs.

All are welcome to these services.

SUGGESTIVE QUESTIONS

On the Sunday School Lesson by Rev. Dr. Linscott for the International Press Bible Question Club.

(Copyright 1910, by Rev. T. S. Linscott, D.D.)

(Copyright, 1910, by Rev. T. S. Linscott, D.D.)

June 12th, 1910.

(Copyright, 1910, by Rev. T. S. Linscott, D.D.)

The Canaanite Woman. Matt. xvi: 21-28.

Golden Text—Great is thy faith; be it unto thee even as thou wilt. Matt. xvi: 28.

(1.) Verse 21—Why had Jesus come to the coasts of Tyre and Sidon? (See Mark vii: 24.)

(2.) Why is proper rest as important a duty as necessary work?

(3.) Verse 22—Can you give any evidence that God has always loved all nations alike, and that to-day, all men, white and black, rich and poor, are equally dear to him?

(4.) Why did this woman ask Jesus to have mercy on her, when the trouble was with her daughter?

(5.) To what extent is prayer for a needy one effectual, unless we really feel the need as if it were our own?

(6.) Which as a rule, are the greater sufferers, persons who have the actual troubles or those who love them?

(7.) Verse 23—Jesus at first did not answer, or pay any attention to this woman's prayer. Why did he do so?

(8.) Why is it that God often acts in a similar manner with earnest prayer?

(9.) Why did the disciples beseech him to answer this woman?

(10.) Did they do well, or ill, in interfering with Jesus' plans?

(11.) Verse 24—Is there any reason to believe that God ever appoints a man to a specific work, so that it is wrong for him to stop aside and help in some other good work?

(12.) If what Jesus here states is to be taken literally, that he was sent in person exclusively to the house of Israel, does that narrow, or limit, his great mission to the whole world?

(13.) Which helps the general cause of God most, one who attends strictly to his own particular work, and leaves the rest to others, or the one who tries to spread himself over all the work?

(14.) Verses 25-27—When a person comes to God with great and pressing needs, and with a soul filled with worshipping feeling, what reason is there to believe that God always inclines to such a person?

(15.) Why is it that God often seems so severe to those whom he loves best?

(16.) Why was not this woman discouraged with the apparent severity of Jesus?

(17.) When God hides himself for a time from the faithful soul, what is his purpose, and what should be the attitude of such soul during the darkness? (This question may have to be answered in writing by members of the club.)

(18.) When God seems to act severely as in the case of this woman, does he like to have us debate the matter with him, as she did, giving expression to our honest views? Give your reasons.

(19.) Verse 28—Give a reasoned opinion as to whether Jesus' method helped this woman more than if he had received her kindly, and granted her request, at the first.

(20.) What is your view as to whether such faith, as this woman had, is possible for everybody, and, if so, how may it be acquired?

Lesson for Sunday, June 20th, 1910. The Parable of the Sower. Matt. xiii: 1-9, 18-23.

CASH SALE

June 11th to July 2nd

This Sale bids fair to eclipse all previous sales at THE BIG STORE.

Goods with which to make a sale are the important things.

On the Best Things we have a liberal supply, enough to benefit a large army of buyers.

Bombastic Language is not necessary to make the people turn out to this store's sales.

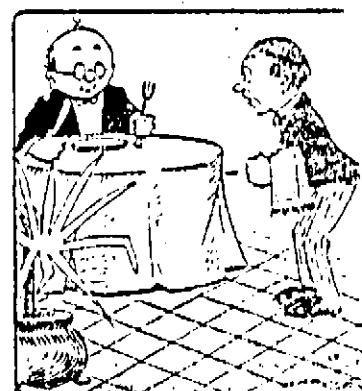

It Works Better to make statements forceful but simple and when the great buying public find the Bargains Genuine, that we have mistated rather than overstated the

facts, it inspires confidence and confidence is the life of trade as the "feller" said.

"A Regular Fair" said one woman. "You've surely got bargains," said another—and so it goes, everybody satisfied and buying liberally, thoroughly appreciating the GREAT SAVINGS.

If you have Dry Goods to buy, now is the golden chance. Hundreds of good things arranged in bins and on tables for easy choosing.

Come in make yourself at home, look around, size up things, you don't have to decide all at once, the sale continues for THREE WEEKS; but COME and visit with your friends, see the crowd, that's always entertaining you know.

TOO PRESUMPTUOUS.

Heard Walter (admitted and pompous) "Have you ordered, sir?"

Despairing Patron—"Yes, I ordered a porterhouse steak half an hour ago, and I wish to apologize for my rudeness. With your permission I will withdraw it as an order and renew it as a suggestion."

Breakfast Eggs.

Put six eggs into a vessel which will hold five pints. Pour over boiling water to fill the dish, cover closely and set on the back part of the stove or the rack to cook. Leave seven minutes for a soft cooked egg, ten for a medium cooked, fifteen for a firm and thirty for a hard cooked egg.

One Trial-Worth a Dozen He Says.

He said his doctor had said to him, "You must have new teeth. But don't go to Dr. Richards, he's no good. He can't make teeth, etc., etc." The real reason for the doctor's recommendation was that the doctor was a personal friend of his.

But he came to me for his work just the same. Because three neighbors of his had recommended my work as proving all right and perfectly satisfactory to them in their families during over five years' time.

That's the secret of my enormous dental practice.

I please my patients. My work is lasting. I make good with you.

Dr. F. T. Richards

YEARS TOO OFTEN WASTED

Magazine Writer Calls Attention to What He Considers a Danger to Democracy.

As conditions now exist there comes into the life of the average boy or girl four or five waste years—the years between thirteen and eighteen. These waste years hold in them the real dangers of our democracy. For out of school the boy at least is worthless. If the boy goes out to attempt to learn a trade at 14 years of age the manufacturer says: "I do not want you in my factory," and the manufacturer will not employ the boy except as an errand boy.

And yet 10,000,000 of fourteen-year-old boys and their sisters—who are really worth something—are out of school in America today. Partly they are out for economic reasons; the family needs their support. But apart from economic forces there are social reasons why he is not in school. His studies and his teachers, and at the bottom of all, the selfishness of the taxpayers.

For when a child is not "doing well" in school the parents find it easy to put him to work outside. Probably 6,000,000 leave school not because they have to leave to support the family, but because the parents feel that the boys at least are better off working out of school than idling and wrangling with their teachers in school. The instinct of the boy for physical education as well as for mental training should be heeded. The boy longs for many things, to see things under his hand. The almost universal introduction of manual training in some form into the lower grades of American schools—giving the boy opportunity to work with his hands—is one of the most important symptoms of social health in our political organization.—American Magazine.

Nothing Above Virtue.

Nature has placed nothing so high that virtue cannot reach it.

DOTY-HARRISON WEDDING TODAY

CEREMONY WAS PERFORMED AT FOUR O'CLOCK.

SEVENTY GUESTS PRESENT

Bride Wore Simple Gown of White Marquise and White Chipped Hat With White Plume.

Under the happy auspices of a perfect June day, the wedding of Miss Josephine Doty, daughter of Mr. and Mrs. Edward P. Doty, and Harry Harrison took place at the bride's parental home, 414 East Street South, at four o'clock this afternoon.

In the decoration of the residence, roses, carnations, and all the summer flowers had been utilized to carry out a scheme of pink and white, with a background of green foliage. A pathway of white canvas had been laid down the driveway and across the hall to the east end of the living room where was stationed the three altar attendants with a canopy of anthurus and asparagus fern.

Some seventy relatives and intimate friends were gathered there when Roy Carter sounded the opening strains of the Lohengrin wedding march and the groom and his best man, Frederick C. Kroken of Stoughton, took their places in the picture. As the Misses Mildred Doty and Eloise Elford, cousins of the bride, stretched the ribbon barriers, eight of her most intimate friends—the Misses Ethel Pond of Madison, Cora Gubbricht, Margaret Westwick, Wilma and Edna Jones, Beale and Jennie Gardner, Edith and Lilla Severin, and Emma Richardson, took their places on either side of the aisle.

The bride was attired in a simple gown of white marquise trimmed with delicate lace. A white chipped hat with white plume, and carried a shower bouquet of white sweet peas. With the exception of an ancient necklace of pearls—on her mother's family—she wore no jewelry. Her sister, Miss Margaret Doty, was maid of honor. The latter was gowned in pink silk and carried a bouquet of pink roses.

Rev. John McElhenny, pastor of Christ church, read the full Episcopal service and the bride was given away by her father.

During the reception a medley of appropriate selections which included the familiar "Oh Promise Me" and the beautiful "Hearts and Flowers" was played by Mr. Carter.

In the dining room, where the wedding supper was served, an immense basket of pink roses served as a centerpiece of the table and it was flanked by festoons of anthurus and em. daisies at the four corners.

The bride's gifts include a large number of exquisite sets and pieces of silver, hand-painted china, and cut glass, framed paintings, and needlework, and several substantial checks from relatives in Pittsburg and other cities of the east as well as Janesville.

Among the out-of-town guests at the wedding were Miss Florence Huescher of Cleveland, Miss Myrtle Millsbach of Brooklyn, Wis., Lawrence Doty of Chicago, and Kramer Doty of Haledale, Cal., a brother of the bride.

Mr. and Mrs. Harrison will depart on an early evening train for Chicago and the honeymoon journey may take them on an extended trip through Tennessee and other southern states where the groom's interests as a member of the American Circulation Co. are likely to summon him in the near future.

BRITTINGHAM & HIXON CO.

BUYS MACLON COAL YARDS

Mrs. W. H. H. MacLoon, who called for bids on the coal business conducted by her late husband, has sold the same to the Brittingham & Hixon Lumber company of Janesville and Madison. W. S. Hedges is here from the Capital City today to take inventory of the property.

BRIEF LOCAL NEWS.

Hard Badly Cut: A laborer, who gave his home as Chicago had his head thrust through the door of a Northwestern car last evening and was badly cut. Dr. W. H. Judd, who was on the train, dressed the wound. He was bound for Madison and continued on his journey.

Engineer Known Here: George Wilson, the Northwestern engineer, whose presence of mind saved hundreds of lives when he stopped an excursion train from Rockford to Keosauqua on the very edge of a burned out bridge at Harlem last Thursday, is well known by railroad men of this city as he worked out of the Janesville yards during the winter of 1908.

Has Many Red Cents: R. P. Hodge, Hartland, Wis., says that he had between five and six pounds of old coins, mostly old pennies. He says he got most of them for building fires at a cent a morning for the teacher, Henry Gurnsey, in the dear remembered district schoolhouse, about three miles southwest of Janesville, Wis.

Automobile Parties: Five automobile parties, one composed of W. J. Schneider of Racine, S. D., and three, and the other of A. B. Fisher of Seymour and Phil M. Annheuser of Green Bay, were registered at the Hotel Myers last evening. Today a party consisting of C. H. Koehner and Andrew Vinge of Madison and J. J. Tschudy of Monroe, stopped at the same hostelry.

Beloit Orange Growers: Articles of incorporation of the Wisconsin & Old Mexico Orange Growing Co. of Beloit, capital \$25,000, have been filed with the register of deeds. The incorporators are C. W. Gore, W. G. Johnson, and H. A. Day.

At a regular meeting of W. H. Sargent Post, G. A. R. held June 10, a unanimous vote of thanks was given the City Automobile Club and all its members for the same, who so kindly and generously conveyed the Post to the cemetery and return on Memorial Day.

J. F. CARLIS, Post Commander.

E. O. KIMBERLEY, Adjutant.

GAMES SCHEDULED TODAY IN LEAGUE

"Spinster" Play First Game in League Race With Y. M. C. A.

"Cubs" Are Victors.

With the second series of games in the Commercial League scheduled for today, the Lewis Knitting Company's team will make their debut in the race for the city championship. The "Spinsters" meet the Y. M. C. A. "Athletes" at the Park Grounds while the Parker Pen Company clash with the Calorie Company's aggregation at the Y. M. C. A. park.

"Cubs" Beat Leaguers.

In a practice game of five innings last evening, the "Cubs" showed the "Spinsters" a thing or two. The "Cubs" won by a score of 5 to 2. The little team led by Kaylor had while Abraham, although a little wild, held the Athletics down to three hits. The lineup:

Cubs—Dorman, c.; Abraham, p.; Berger, s.; Hemming, 1b.; Sullivan, 2b.; Ryan, 3b.; Griffin, l.f.; Fox, c.f.; Porter, r.f.

Y. M. C. A.—Koch, c.; Kistler, p.; Carlo, s.; Murphy, 1b.; Richards, 2b.; Derflin, 3b.; Williamson, l.f.; Matthews, c.f.; Smith, r.f. Umpire, Kline.

FOURTH AVE. BRIDGE CLOSED FOR REPAIR

By Order of Mayor Carl Late Yesterday Afternoon—Horse Broken Through the Rotten Planking.

Late yesterday afternoon the Fourth avenue bridge was closed for repairs by order of Mayor Wilbur F. Carl. Anybody crossing the dilapidated structure does so at his own risk. The planking is in very dangerous condition and is liable to break through any time. It is expected, the river will be opened at that point by a steel and concrete bridge.

ANTHRAX EPIDEMIC IS GREATLY FEARED

State Veterinarian D. B. Clark Summoned to Polk County to Investigate.

State Veterinarian D. B. Clark left last evening on a hurry up call for aid from the farmers of Polk county where an epidemic of anthrax has been discovered near Luck. Within the past two days some two dozen head of valuable cattle have died as a result of the disease.

WILL BE DELEGATE AT NAT'L MEETING

Mrs. Spencer of This City Appointed Delegate to W. R. C. Convention in Atlantic City.

Post Department Inspector Mrs. Florence Spencer has returned from Fond du Lac, where she attended the annual Dept. of A. R. C. convention and convention for being made a delegate to the national convention, W. R. C. to be held in Atlantic City.

\$15,000 TRANSFER OF HARMONY REAL ESTATE

Lewis J. Nooy and Wife Have Sold 154 Acres to W. P. Nooy of Milton.

By the terms of an instrument filed with the register of deeds today, Lewis J. Nooy and wife of Harmony transferred to W. P. Nooy of Milton for a consideration of \$15,000 the n. e. quarter of Sec. 30, Town 4, north of Range 16, excepting therefrom the C. M. & St. P. right of way. About 154 acres are involved in the deal.

SUNDAY SCHOOL TEACHERS AT CONVENTION IN DELOIT

Eight Members of Norwegian Lutheran Sunday School Here in Line City Last Night.

Eight of the teachers of the Norwegian Lutheran Sunday School in this city, were in Deloit last evening where they attended a convention of Sunday School teachers held in the Norwegian Lutheran church there. In the party from here were: Rev. Wilford A. Johnson, Sup't.; Oscar Hammarlund, the Misses Edith Lund, Clara Harkness, Mabel Danielson and Mary Anderson, and Louis Husted.

OBITUARY

John Nash.

After three years of patient suffering, John Nash, a well known resident of this city, died yesterday afternoon at four o'clock at his home, 415 Chatham street. Mr. Nash was forty-seven years of age and had lived in Janesville all his life. He was employed on the railroad. His loss is mourned by a brother and two sisters—Thomas of Janesville, Mrs. Bernard of the town of Harmony, and a sister who resides in Waukegan. The funeral will be held from St. Patrick's church Monday morning at nine o'clock.

JUNE SPECIALS.

Yard wide unbleached muslin, 1c yd. Yard wide bleached muslin, 1 1/2c yd. Shirting white, 5c yard. Unbleached linen crash, 18 inches wide, 5c yard. T. P. Burns.

Regular meeting of the W. R. C. Tuesday afternoon at 2:30 o'clock.

Bad Company.

How do men feel whose whole lives (and many men's lives are) are lies, schemes, and subterfuges? What sort of company do they keep when they are alone? Daily in life I watch men whose every smile is an artifice and every wink an hypocrisy. Both such a fellow wear a mask in his own privacy, and to his own conscience?—Thackeray.

PLAY BALL!—See ad elsewhere.

INCREASE OUTPUT OF THE COMPANY

JANESVILLE SAND AND GRAVEL COMPANY FURNISH MUCH MATERIAL TO MADISON.

ISON.

WILL OPEN PITS SHORTLY

New Machinery and Facilities For Handling the Immense Shipments Will Be Installed.

Since last fall, when it was decided to increase the facilities for shipping sand and gravel in order to keep pace with the growing demands of the Janesville Sand and Gravel Company, formerly known as the Janesville Cement, Shingle Company, have practically quadrupled their output and when their new pit near the sugar cane factory is opened within a few days, are prepared to get out and forward 4,500,000 pounds of sand and gravel daily.

At the present time, the firm is forced to take only what orders they can fill from the old pit on McKee boulevard and even under favorable conditions the output is limited to about twenty-two cars a day, less than half of what will be shipped when both pits are in operation. It was hoped to have the new pit producing by June 8, but delay on the part of the railroad company in placing the side tracks and switches has held up the work.

Practically the same system of digging the sand and gravel that has been used at the old pit, electric motors and belt conveyors, have been installed at the new plant. Six electric motors, with an aggregate of sixty-five horse power, furnish the energy to operate the digging outfit and convey the sand and gravel to the concrete bins, which are placed thirty feet in the air and are capable of holding three carloads.

Sifting operations, by means of a huge steel cylinder, situated on top of the bins, separate the gravel into two grades, sand and coarse gravel which are placed in separate bins and loaded into cars by means of slides as needed. Stones too large to be included in the coarse gravel, and run through a stone crusher, one of these machines having been installed at each pit. The crusher at the new pit has a capacity of fifteen tons a day.

When the fact is taken into consideration that the company has only been shipping sand and gravel in large quantities since the spring of 1909, an output of four and a half million pounds of sand and gravel a day, which is twenty-seven million pounds a week, is something of an achievement and in itself is a high tribute to the executive ability and progressive spirit of the officials.

These results have been achieved only through the installation of the most modern machinery and at the present time, the local company have a plant that is as up-to-date as any in the country. So confident are the owners in their ability to meet all requirements in record time, that they are making a specialty of handling rush orders. Carload lots, ordered by telephone, in the morning are filled and shipped before evening.

Some large contracts are being handled at the present time, among them being the shipping of ten carloads of gravel a week for the retaining wall of the new capital at Madison, and about fifteen cars daily for various firms in Chicago. The company is also supplying the contractors with concrete material for the new Milwaukee, Sparta and North-Western line which is being built north of Milwaukee.

RED RIDING HOOD WOLF GOT LAMBASTING

In District School Play at Fulton Last Evening and Collared in Fashion.

Charles Henningsen, Sam Echlin, and the Misses Harriet Bowditch and Louise Sherrin drove to Fulton yesterday afternoon and attended the commencement exercises of the district school. The play, "Little Red Riding Hood," was presented in a spirited and realistic fashion, but the young man who played the role of the Gray Wolf got the worst of it. All seemed clear sailing after he had taken on the grandmother and climbed into her clothing with the idea of gobbling up Little Red Riding Hood, until the wood-chopper attacked him with a play axe, which was new to the audience, almost beat his erstwhile schoolmate to a pulp. The blood-thirsty "old dog" collapsed in a heap, and there wasn't any play-acting about that, either.

UM— I CAN'T WRITE WITH THAT POINT ISN'T SHARP.

What part of a clock?

Invention of Cut Glass.

Pressed glass was invented by an humble carpenter of Sandwich, Mass., but in the primitive state of affairs it profited him little. More than 200 years ago a Bohemian glassmaker conceived the idea of making cut glass. This idea was destined to revolutionize the entire glass industry of the world. The inventor began by making the walls of the article on which he was working thicker than he was used to so that he might cut the glass with a sharp knife into figures as he chose.

Every day there is something doing in real estate on the West Ad. single day.

PLAY BALL!—See ad elsewhere.

BANQUET FOR VETS AT Y. M. C. A. MONDAY

Members of W. H. Sargent Post G. A. R. Will Be Guests of Association at 8:30 Dinner.

On Monday evening the members of the W. H. Sargent Post, G. A. R., will be entertained by the Y. M. C. A. at a 8:30 dinner at the association building. Some time ago a desire to honor the veterans in this manner was expressed and the invitation was accepted by the old soldiers. June 8 was originally set as the date for the banquet, but owing to the meeting of the state encampment, which a number were attending, it was decided to hold it later, that all of the old soldiers might be present. It is the special request of the commander and adjutant of the post that all members meet at the association building promptly at six o'clock.

FINED TEN DOLLARS FOR SPEEDING CAR

William Alderman Pleads Guilty to Exceeding the Speed Limit in the City.

Numerous complaints on the score of exceeding the automobile speed limit on residence streets of the city came to a culmination yesterday when William T. Alderman, driver for the Riverside garage tore up Court St., about forty miles an hour, for which offense he was arrested this morning by Chief of Police Appleby, appeared in court and pleaded guilty. He was fined \$10 and costs with an alternative of fifteen days in jail, but made arrangements to pay the fine.

Although complaints are received every day regarding violations of the speed ordinance, this is the first case where the witnesses were willing to appear in court and swear that the offense was committed. Seeing in the knowledge that the case would not fall through because of lack of evidence, the chief made the arrest and Alderman's conviction followed. Were officers who have lodged complaints regarding reckless driving as willing to co-operate with the department as the witnesses in this case, a number of drivers who have been habitual offenders would be punished. With only a few men to work with the department has been unable to watch all the side streets and it is conceded that the law has been violated many times.

Alderman, when charged, admitted that he had exceeded the speed limit and attempted to defend beyond reiterating the statement that he was not the only offender and that "every automobile owner in the city did it." He made this assertion several times, emphatically and with little respect for the dignity of the court.

Complaints have also been made by residents of Center Ave., that taxicabs for the Wisco company have been using that thoroughfare for a speedway and children have been forced to flee for their lives on numerous occasions. In this connection, Chief Appleby has made it plain that the police are not "having fun" any driver in particular but that any one found violating the speed ordinance would be arrested if the evidence was sufficient to convict. Those who have been lodging complaints can aid the police in this by expressing their willingness to testify in court.

BRIEF PERSONAL MENTION.

Mrs. Bron Meade and daughter, Louisa, who have been visiting with Mrs. Meade's sister, Mrs. Roy Palmer, departed today for Milwaukee to pack their household goods for removal to Toronto, Canada, where Mrs. Meade has secured an important position on the Toronto Globe.

Miss Juliet Bowditch, who has been a member of the high school faculty at Great Falls, Montana, for the past few months, is expected home Monday evening for her summer vacation.

Mrs. R. T. Denkin of Philadelphia is in the city the guest of her sister, Mrs. Edward Ringer.

Dr. T. W. Nuzum and wife are at St. Louis this week attending the 61st session of the American Medical association.

Mr. and Mrs. John W. Higgins of Fulton, arrived last morning for a two weeks' visit with Mr. and Mrs. J. T. Shepard, Weyerhaeuser, Wis.

The Misses Abigail Knock and Mable Brown have tonight for Jefferson.

On Thursday last Miss Gladys Hedges was hostess at a six o'clock dinner in honor of Miss Daisy MacLeish. Fourteen young ladies were present and the affair took the form of a luncheon shower for Miss MacLeish.

Dr. W. H. Judd returned from a business trip to Chicago yesterday.

Mrs. H. W. Bombs is stopping a few days at the Empire Hotel before leaving for Salt Lake City.

Mrs. E. J. Kent left this morning for Chicago where she will meet her daughter Mrs. William W. Watt of Reno Nevada. Mrs. Watt will accompany her mother back to Janesville to remain several weeks. Both Mrs. Watt and Mrs. Kent will stay in Chicago for the wedding of Mrs. Kent's grandson Ray Kent Ains, which will occur within a few days.

W. W. Dale left this morning to spend the week-end at Lake Geneva.

E. G. Borden is here from Milton today.

Albert Salisbury of Whitewater transacted business here today.

F. W. Zimmerman, agent for the C. M. & St. Paul, left today for Cleveland, O., on business.

L. J. Hawley and W. H. Hopkins of Rockford, were business visitors here today.

J. L. Wilcox and Harry Carter left this morning to spend a short vacation at Deerbrook, Wis.

Miss Ella Day of Menominee, Wis., is visiting in the city.

A. J. Morse and W. B. Bennett came up from Chicago last evening to join Grand H. Fisher on a fishing trip to Lake Koshongong.

Mr. and Mrs. W. B. Barnes of Elgin, were visitors in the city last evening.

Attorney Edward H. Ryan is here from Portage.

Franklin Apherlam.

Drive thy business; let not thy business drive thee.—Franklin.

ROCKFORD FLOATER WAS IDENTIFIED

Proved to Be Body of Alonzo Flynn, a Lather by Trade—Janesville Woman Viewed Remains.

The body taken from the Rock river at the Wilmarth farm, south of Rockford, on Thursday, has been identified by relatives as that of Alonzo Flynn, age 37, a lather by occupation.

Alonzo Flynn was a native of Janesville, at which time he is alleged to have told a friend that he "was going to make a hole in the Rock river." No reasons for suicide can be assigned. A Janesville woman giving the name of Mrs. Austin visited the Forest City yesterday and inspected the remains. She represented herself as searching for her husband, who left the city about a year ago and whose whereabouts were supposed to be unknown, though she had received a letter from St. Paul over what purported to be his signature a few days ago. Upon finding that the floater was not her husband she telegraphed to St. Paul and ascertained that the signature was genuine. The name of Flynn, Ellington of Sharon was also mentioned in connection with the ghostly discovery but Mr. Ellington, after keeping friends and relatives in suspense for two weeks, finally turned up smiling and without a scratch.

SENIORS GUESTS OF THE JUNIOR CLASS

Graduating Class at Edgerton Most Enjoyably Entertained at Banquet at Church.

(Special to this Gazette.)

Edgerton, Wisconsin, June 11.—The Juniors of the Edgerton High school gave a banquet Friday evening for the Seniors in the Congregational church at 7:30. The basement was decorated in the colors of the two classes, pink and white for the Seniors and gold and white for the Juniors. The dinner was served in four courses by the Sophomore girls. Every Senior received a miniature pink pin with white numerals while the Juniors received yellow numerals as a souvenir. Toasts were given by Warren Coon, Henry Morley, Mr. Ellis and Mrs. Bennett. A most enjoyable evening was spent.

Andrew McIntosh and son, Will, went to Milwaukee Friday to visit Isaac McIntosh.

Miss Alice Burdick of Madison, was visiting friends in the city Friday.

The W. C. T. U. met in the lecture room of the library Friday afternoon.

Frank McGiffin, a former resident of Edgerton is here visiting relatives and friends.

Mrs. Gertrude McCarthy will serve the annual banquet in the Congregational basement Friday the 17th.

Lo, the Poor Hireling!

No man ought to be tolerated in an habitual humor, whim or particularity of behavior, by any who do not wait upon him for bread.—Steele.

True Patriotism.

Teach your children that the true patriotism is to love their country, not for what they can make out of her, but for what they can give to her.

Stocks, bonds, real estate or other investments may be worth more or less in the course of time, and occasionally are not salable at all.

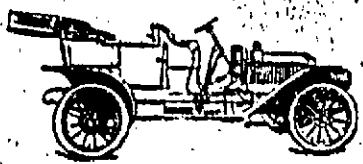

A thousand dollars deposited in this bank is always worth one thousand dollars and will return you three per cent, no more, no less, if deposited in the form of a certificate of deposit.

GARMENT STORE

Millinery For Summer

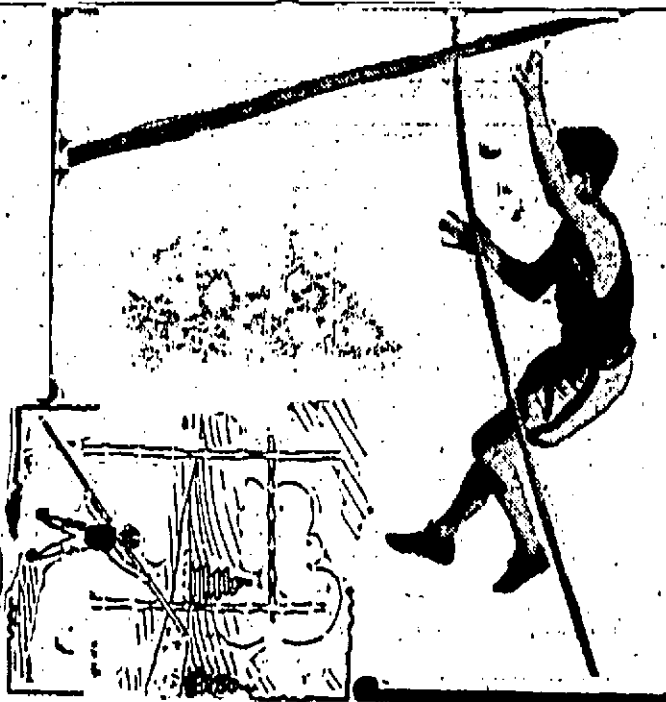

This department shows at all times whatever is demanded by the fads of fashion. The latest ideas in exclusive headwear are shown here first, and at present the lines for summer wear offer many attractive models. Whether it's a white hat or a black one, you will find it here and it's sure to be correct as to style. At the same time whatever may be left in the early spring styles can be bought now at half and in some cases less.

Simpson's
GARMENT STORE

DAINTY FROCKS DEMAND DAINTY FOOTWEAR.

Very trim and full of coquetry are the summer girl's shoes and a separate pair has she for almost every costume. Dainty as the styles pictured are, they are all intended for out of door wear—as attested by the welted soles and not exaggerated heels. Two smart patent leather pumps are shown, a colonial pump of tan leather and a very modish little shoe of patent leather and white kid. The white buckskin slipper and the one intended for wear with white costumes—the slipper showing this season's chic "touch of red" in the leather tips on the strap trimming.

BREAKS ALL WORLD RECORDS IN POLE VAULT. Remarkable picture of Nelson of Yale clearing the bar in the pole vault during the intercollegiate meet at Philadelphia. In the meet Nelson broke all world records by clearing 12 feet 4 3/4 inches.

Fishing by Electricity.
A novel method of catching fish was described in a recent issue of the Electrical Review and Western Electrician. A trolley line running between Franklin and Columbus, Ind., skirts the White river for a considerable distance, and it has been discovered that the trolley wire was frequently tapped to furnish current for fishing by electricity. An end of the wire was placed in the water, and the current stunned such fishes as came within its influence, so that they could be taken out with scoop nets. The trolley company and the Indiana fish and game warden are trying to break up this method of fishing.

Wireless in Philippines.
It is proposed to establish a wireless telegraph station at the meteorological observatory on Mount Mirador, in the Philippines, to give warning of typhoons to vessels in the China sea and points along the China coast. A similar station will probably be established later at Santo Domingo de Basco, on the island of Batan, for communicating information of the presence of typhoons in that vicinity to the headquarters of the Philippine weather bureau at Manila.

Hot Weather Worries

The hot days are here, and with them must come the sunburned and tanned complexions.

Nothing is more soothing or satisfying than the application of a cooling, healing cream on a hot sunburned skin. The E. Burnham Co. of Chicago make a complete line of creams and toilet articles, one for each need.

We carry a full assortment of these excellent preparations.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

"Only be admonished not to strike leagues of friendship with cheap persons where no friendships can be. Our impetuosity betrays us into rash and foolish alliances where no God attends."

HOW long does it take you to make a friend? Are you one of those people who grasp at each new proximity—the little girl beside you at school, the girl who rooms next to you at college, the woman at the next desk in the office, the woman who goes to the same church you do and lives in your end of the town, the teacher in the next room—and who tries to make a friendship of it? If you are, don't. It doesn't pay.

Learn propriety friendships for children.

"The next time you find yourself glowing with enthusiasm over some new acquaintance, pause a moment and consider this little warning: that I can across in the 'Intimations and Maxims of William Dean Howells'.

"Do not easily acquiesce, test finding reason to cool, then make an enemy instead of a good neighbor."

Who of us has not at some time experienced at least one of those unbecomingly hasty friendships that cool into a distinctly uncomfortable status, neither friendship nor acquaintance?

I remember a case of a girl who worked in the same office that I did. We had two or three pieces of work to do together, discovered a surface congeniality—founded a belief in a mutual dislike of one of our employers—and straightway decided that we were to be bosom friends.

She was bounding on the other side of the town. I persuaded her to find a place nearer my home. And then, alas, we both came to a gradual realization that the congeniality was only surface, that she didn't fit in with my friends nor I with hers.

The star of our friendship that we thought was to be a fixed constellation in our skies, turned out to be only the blaze of a Fourth of July rocket, and fell rocket-like to earth.

Since then I have realized that a pleasant, jolly acquaintanceship is a very much better thing to have between you and those with whom your work throws you in daily contact, than a still born friendship.

Now, please do not think that I mean that one should make one's first friends a closer corporation, and never be ready to admit any new ones, however congenial.

Emerson says, "Every man passes his life in a search after friendship." That is as it should be and any man who comes to make that search has lost some of his humanity.

My complaint is only that you be not too ready to conclude that you have found what you seek.

"The laws of friendship are great, austere, and eternal, of one web with the laws of nature and of morals. But we have aimed at a sweet and petty benefit, to such a sudden sweetness. We snatched at the sweetest fruit in the whole garden of God, which many summers and many winters must ripen."

Cease to try to hurry these laws and this fruition.

Forever hope that in each new personality you may find a friend, but be slow in declaring that hope a conviction, and acting upon the conviction.

To take another leaf from the reflections of the dear old Quaker gentleman.

"Be Reserved but not Sour, Grace but not Formal; rather Sweet than Familiar, Familiar than Intimate; and intimate with very few, and upon very good grounds."

Fads and Fashions

New York, June 4.—Contrary to all predictions blouses are more popular than ever this season and a scrutiny of the displays in the big fashionable shops will convince anyone that this season's blouses are exceptionally pretty and effective. One of the most striking features is the employment of frills for ornamentation. Frills are decidedly impractical, especially with Burgundy waists or blouses, but they are pretty and give a dainty effect that cannot be obtained by any other style of ornamentation.

The frill collar families a bare throat, or at least that is the case with the lingerie models, though in the costume houses of fashion, serge, etc., a frill neck finish is often accompanied by the shallowest of transparent guimpes with close high collar.

In the lingerie model this idea does not work out very well and where a high collar is required the frill usually runs down the front.

The collarless blouse, like the collarless frock, has things very much its own way in Paris, save for delightful little sheer tucked and ruffled and long-sleeved models designated as "tailored," but although the collarless blouse has taken up the collarless models with enthusiasm there are always women even in Paris who refuse slavishly to adopt unbecoming modes, and in New York there are plenty of fashionable women who will have none of the collarless models.

When a collarless frock or blouse is becoming it is charming, but few women past their teens wear it well in connection with the hard collar. In such cases the hard collar line should be softened by a lingerie frill or embroidered collar fall, frill or embroidered collar and coming over the throat. There are numbers of such collars in all grades of fineness and usually accompanied by cuffs to match.

The veiling idea has strongly influenced the designers of costume blouses and many of the prettiest models in this class are of chiffon, silk mousseline or etamine veiling silk or satin, here or contrasting chiffon. The idea is not altogether new, but the treatment is, for the blouses follow the frock lines, and the best looking of the veiled models are excessively simple in line and have most of their elaboration in the veiling, which is applied to the foundation, while the sheer veiling is of the most pronounced simplicity.

Sometimes, where the collarless effect is not desired, instead of introducing a guimpe the veiling chiffon or mousseline is run up to form a perfectly plain yoke and collar, semi-transparent of course and perhaps relieved by a line of white or cream in the collar top. Often two veilings of chiffon are used in order to obtain a desired color effect.

The bordered blouses are used for some attractive little blouses of simple line, a surprise arrangement with the modified kimono sleeve being a design often chosen for such material. Persian or echechre silks veiled in plain chiffon and echechre chiffon or mousseline in exquisite soft tones without veiling are popular blouse motifs and much is done with these charming antique printed cottons or cretonnes veiled in plain chiffon or made up without veiling and softened by net or lace collars and frills and touches of black in cravats, buttons, etc.

The newest models in very handsome hand-made lingerie blouses are composed of heavy soft hand woven linen, beautifully embroidered in open-work designs and combined with the sheerest of linen and flannel of lace.

Jeans trimmed with nothing but big ribbon bows or elous, and perhaps a facing of velvet; but in every case these ribbon trimmings are so hand-some as to be quite sufficient for smartness.

Sashes will be very popular this summer, and with the promised revival of old-fashioned 1850 styles we shall see the sash at the top of favor again. The new sash, however, must hang quite straight and simply against the skirt with no fluttering loops or ends. In fact the smartest sashes are heavily weighted at the bottom, to keep them down.

The rich Persian and Dresden ribbons are used as dress trimmings and are used in great and noble fashions in the same manner that embroidery is used on lingerie costumes. Short dressing jackets show ribbons at the throat, back, in front in long loops and ends at the waist line, which is usually rather short.

There are some beautiful parades with eyelet embroidery to match sets of them, and others are trimmed with embroidery "set in," matching the lingerie gown prepared.

FLORENCE FAIRBANKS.

EACH DAY'S MEMORIAL.

IN MARY HUSSELL.

After "Memorial day" services—what? Do you put the thought away for another year and think no more of the solemn rites and their meaning?

Every day is Memorial day in some hearts. The griefs of the world are many and widespread. Only selfish people never suffer.

Do you take your pleasures of the year in one great spree and, in two weeks, spend enough energy and money having a successful "good time," to last throughout the year?

Do you do up your religion with the observance of Sunday as a day of worship?

Is your love for home manifested in a brief episode once or twice a month, if you are away from it and by as brief a commencing with the family as possible when you are living at home?

Do you save all your affection to mother and father—to sister and brother—and, by placing a handful of roses on their grave, do you think you have shown the real devotion of which you are capable?

It is a day of specialization and concentrated energies and concentrated emotions. We apparently exist but in a semi-conscious state. Religion, love, patriotism, grief and joy—we are prone to have one grand period for the demonstration of each and then put it away in its little heart closet till the time comes around again and then we take out the poor little faded and dusty emotion, refresh it and re-echo it for the moment with our uttered loves, and joys, and sorrows, and then, when we

have exhibited the top and proven to the public that we possess it, we place it once more in the dark and forget it till its turn comes around once more.

Love that is love loves every day in the year and every hour in the day. Religion that is worthy of the name permeates the whole life. Grief that goes deep cannot be cleared up by one day of public sorrow.

Pleasure that is worthy of the name is a lasting joy and is for all time. Think then what you are doing when you pretend to these things. We are great actors. "All the world's a stage" and we are most of us unskilled players. We deceive ourselves by the splendor of our efforts. It is often an unconscious deception and we need but to be fairly awake to understand.

Make the Memorial day services of value so that for each day in the year you do some worthy action in the name of the beloved dead.

Make religion a real and tangible thing so that every act of life is colored by it and you need neither creed nor confession to mark you as one of the chosen of the earth.

Make your life so pure and noble that men will not need to say, "he believed that," or "he taught that." They will feel the influence of such a life like incense permeating the air. They will grow in it, as plants grow in the sun. Live today as though you knew you would be one of those over whom the memorial words would fall within the year, and love and everlasting life will come to you.

Small Consolation.

The man who has signed a 30-day note can get no consolation from the discovery that ink marks will last only 70 years.

Knox saves American boy from fate of Cannon and Groce.
William P. Pittman of East Cambridge, Mass., captured by the government forces of President Madrid.

Washington, D. C.—The safety of W. P. Pittman is assured through the prompt action of Secretary Knox. Having in mind the fate of Cannon and Groce, who were practically murdered at the hands of Zolaya, he acted promptly and warned Madrid against hasty action. Through the United States consul at Managua word has been received that the life of Pittman will be spared.

The capture of Pittman reveals a remarkable career full of experiences and adventures in almost every quarter of the globe.

"Billy" Pittman, as he is remembered by those who knew him a dozen years ago, has been a soldier of fortune, with an unquenchable love for adventure since he was a boy. When 16 he ran away from his home, 178 Spring Street, East Cambridge, and

for six years he kept his whereabouts such a mystery that he was given up by his mother, two brothers and a sister for dead. In that time young Pittman had almost completely encircled the world.

William P. Pittman is now 27 years old, a man of wonderful physique, standing six feet one inch in his stocking feet and weighing more than 200 pounds. As a boy he attended the Thorndike grammar school in East Cambridge and even then displayed rare courage and physical prowess.

Pittman ran away from Cambridge while his mother, Mrs. Rachel Pittman, a widow, was on a visit to her old home in Newfoundland. Although every effort was made to find the missing boy, not a word was heard from him until 1900, when he met his mother in New York. Even to his mother he did not tell the whole story, but the following year he returned home for the first time. In seven years and to an intimate he told his experiences, which are now told for the first time.

Without a Rival

The best medium priced corsets made are those bearing the trademark name ROYAL WORCESTER. No other feminine garment is more essential than the corset, for the corset is the base—the starting point of all fashionably designed, perfect fitting gowns.

Royal Worcester Corsets.

are correct from every viewpoint—the result of many years of progress and improvement in the corset art.

For those who seek perfect style, fit and long service, at a moderate price, the ROYAL WORCESTER will meet every requirement. Let us show you the new models.

Style 574 is for those of average build. Has medium high bust, very long hips and cutaway front. Very long back extending below ends of boning several inches. Non-rustable boning. 4 supporters. White badste.

Sizes 18 to 36. Style 564 same model, coutil. PRICE \$2.00

Base Ball Is An All Year Game

We Americans have so much enthusiasm over baseball that it has become an all-year game. During spring, summer and fall it is played out-of-doors, and in winter it is played indoors, called Indoor Baseball. You see, by getting this Gazette game you have a baseball game you can play with interest, any season of the year. It is always in season and always appropriate.

Read the directions how to get one, below—it's easy. With each game there are two dice boxes, and two cubes with letters representing hits, runs, bases, etc. Complete instructions with each game.

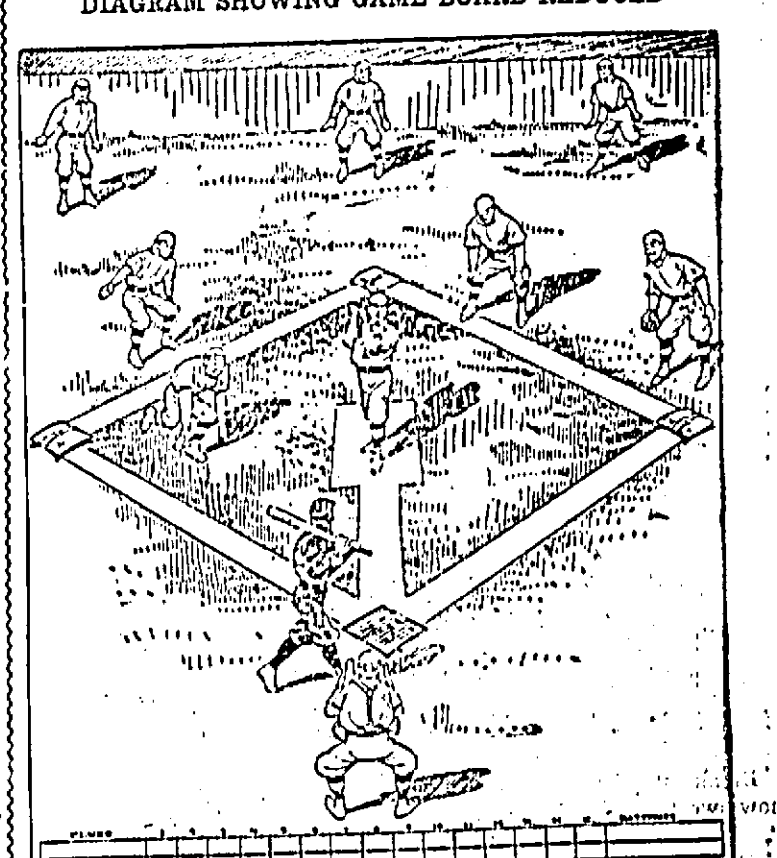

Cut out five diagrams, like the one in this ad, having different dates, present them at this office or any of the below mentioned stations with 10c and the game is yours.

A NEW ANTISEPTIC.

Germans enter the human body through the mouth or throat and through the skin whenever there is a cut or scratch. A little care in the beginning will prevent almost every case of blood poison, diphtheria, scarlet fever, tetanus, and other germ diseases. If people would only germ their mouths, throat, or any other part of the body with Thym Oxon, the new antiseptic which is a new germ killer but not a poison to the healthy flesh. Thym Oxon is composed of Oxygen, Thymol, Wintergreen, Eucalyptus and other strong but not poisonous antiseptics. It acts at once, purifies every wound, heals cancer sores, ring worm eruptions of the skin, cleans the mouth and nasal passages of germs, boils and ulcers are made clean in a few hours. Thym Oxon reduced with glycerine and warm water is the best remedy for Nasal catarrh. It's healing, soothing and antiseptic effect is noticed at once. Every family should have a bottle in the house to apply to any wound. Don't take chances of getting blood poison. Thym Oxon is sold only by the Hinderer Drug Co., Milwaukee and River streets, at 25c per bottle.

Half a cent buys enough

FULL TEXT OF THE OPINION

THAT HAS BEEN RENDERED BY JUDGE GRIMM.

IN CASE AGAINST WEIRICK

Holds That Abstract Books Are Public Records and That Anybody May Copy Any Part or All of Them.

Owing to the widespread interest which was manifested in the action brought against Register of Deeds Charles H. Weirick, at the instance of the county board, to restrain that official or his agents from compiling for private use certain copies of Judge Grimm's opinion which was recently announced in yesterday's issue, we will command careful attention. The case will be remembered, was argued several weeks ago by District Attorney J. L. Fisher and William Ingber, Jr., counsel for the county, and M. G. Joffe and Fred C. Thorpe, attorneys for the defendant. Judge Grimm finds as follows:

OPINION.

I have given this case the careful consideration which its importance merits, and will state as briefly as may be the conclusions at which I have arrived.

The action is brought for the purpose of restraining the defendant from making a copy of certain abstract books now in his possession as register of deeds. It is alleged that the defendant is using the same for private use in selling abstracts in competition with the county. Incidentally the court is asked to compel the defendant to account for and turn over all fees collected by him for abstracts made which he has not already turned over, and to compel him to return to the county sixteen blank books which the purchasing committee sold to him, it is alleged, without authority.

It appears that in 1880 the county board was considering the advisability of establishing a tract index in the office of the register of deeds. The law at that time (Sec. 762, 1881) authorized the same, and provided that when once established by the board it should not thereafter be discontinued. In March, 1881, Sec. 762 was amended so as to permit the discontinuance of such tract index in case the county should adopt and maintain a complete abstract of title to the real estate therein as a part of the official records of the office of the register of deeds. It seems that in 1880 when the matter of establishing a tract index under the then existing law was under consideration by the county board it was referred to a special committee who reported to the board at the November meeting of that year. Their report was indefinitely postponed, but they were authorized to examine the feasibility of having a complete abstract of title made instead. The committee again reported on January 7th, 1881, and offered in their report a resolution establishing such abstract and authorizing the county clerk to contract with C. L. Valentine to prepare the same, which report and resolution were duly adopted. This was a little over two months before the act of 1881 relative to county abstracts was published. It does not appear how soon after the adoption of the report with Valentine into the abstract itself was not completed or accepted by the county board and accepted by the county board in January, 1881, the county board adopted a committee report providing that the abstract books should thereafter and until changed by the board be in the custody of the register of deeds; that the register of deeds should keep them written up as fast as papers were recorded; that he should make abstracts therefrom when ordered and charge therefor certain prescribed fees; and that for his services in making said books written up and keeping the abstracts he should have one-half of all the fees received for such abstracts. Since that time no change has been made in that regard and each succeeding register of deeds has during the term of his office held the custody of the abstract books, kept them written up, made the abstracts called for, retained one-half the fees and turned the remainder over to the county treasurer. The present incumbent, the defendant, acted under the same arrangement and asserts his willingness and readiness to continue to do so during the remainder of his term.

During all the years that have passed since the establishment by the county of these abstract of title books, they have been open to the public for use in tracing titles, and citizens as well as the register of deeds have used them for the purpose of making abstracts for sale. It appears beyond question from the records of proceedings of the board that these abstract books were considered by the county board as more practical and serviceable to the public than the tract index authorized by law. It is well known that without the aid of one or the other of these systems the records of conveyances in the register's office are of little practical value to anyone, owing to the extreme difficulty of marshalling those pertaining to any particular parcel of land. Had the county board at that time voted to establish a tract index instead of an abstract of title it is not claimed that such tract index would have been one of the "public records" referred to by the statute as required to be kept in the office of the register of deeds; and had the county board first established a tract index and then waited a few months until the act of 1881 authorizing the establishment of an abstract of title in lieu of a tract index went into effect it is not claimed that such abstract would have become a "public record"; nor is it claimed that any person may not copy any or all of the public records in the register's office. Sec. 760, Ch. 18, expressly so provides and our supreme court has so held in *Hanson vs. Elchstadt*, 69 Wis., 523. But it is claimed that because no tract index had been previously established, and because on the date of the adoption of the resolution providing for the acquisition of the abstract of title in question, the law authorizing such abstracts had not yet become a part of the statute, consequently at the time no statutory authority therefor and no mandate constituting it a "public record" it became the private property

of the county as a body corporate, to be used for corporate revenue like any individual monopoly.

The pivotal point in the case is recognized by the counsel of both parties to be whether or not the abstract of title in question is a "public record" such as are required to be kept in the office of the register of deeds for public use; if it is then, under the law of this state, any one may make a copy of any part or of the whole thereof no matter how many volumes there may be, so long as he does not interfere with the proper performance of the work of the office or the convenience of the public having business therein. Does the fact that the abstract of title was compiled for two months before the law authorizing it went into effect take it from under legislative control and invest the county with a proprietary interest in its unauthorized compilation which it may exploit for the benefit of taxpayers and at the same time control the public as to private property and exercise its monopoly in whatsoever manner it may see fit.

Counties are quasi or limited municipal corporations; they are local subdivisions of the state; created by the state for the purposes of civil administration auxiliary to the state; their duties are prescribed by the state and they have no powers and can exercise no privileges except such as are granted them by the state. In the absence of statutory authority a county could no more engage in the abstract business for profit to its taxpayers than it could in selling lightning rods. It exists not for the purpose and benefit of the taxpayers, but for the good of all the people residing within its boundaries, and within the state—in other words, the public—whether they be taxpayers or not, merely seekers after the shining circle that will entitle them to enter that happy circle. As yet the state has not seen fit to invest its county organizations with power to maintain abstracts of title for its sole use to the exclusion of the public, and any abstract system, it may have started before the law on that subject was passed has been made subject to the law, must be maintained as provided by law, and is a public record. Being a public record, every citizen is entitled to its use, to make extracts and copies therefrom, or for the purpose of compiling with the county in the business of selling abstracts. This identical question has just recently been so decided by the supreme court of Illinois, and so far as our own supreme court has spoken on the subject it is in accord with this view.

As to the plaintiff's prayer that the defendant be compelled to account, etc., I am of the opinion that the complaint fails to state a cause of action. The correctness of the accounts from the defendant rendered is not in dispute; the defendant asserts that he is willing to pay over whatever he is entitled to by the county under the arrangement heretofore existing and actually acquiesced in. Also it may be added there is neither allegation nor proof of demand on the part of the county or refusal on the part of the defendant. While I do not under the pleadings feel called upon to decide the matter of the legality of the method of fixing the defendant's salary or the validity of the arrangement in reference to the division with the county, of the fees received for abstracts, I suggest that of right the present arrangement ought by him to be continued to be continued to the defendant's term. It has nothing to do with determining the question of the defendant's right to make copies of the abstract books, anyway, and that is really the sole bone of contention.

Having decided that upon the only equitable issue presented in this case the plaintiff is not entitled to relief, the matter of the right to recover the sixteen blank books presents only its legal phase; that is to say, the right to recover them because of what has been copied into them being denied, there remains only the question of the right to the recovery of the books. That is a matter proper to be determined in an action at law, but I shall not that the sale was consummated between the committee and the defendant in good faith, agreeable to similar previous custom and exercised by a previous committee and ratified by the board and that the price at which they were sold was their full value.

From all that has been said it follows that the complaint must be dismissed with costs and damages.

Dated June 10, 1910.

GEORGE GRIMM,
Circuit Judge.

EXERCISES FOR THE COUNTRY GRADUATES

Exercise For Graduates of Rural Schools Will Be Held at Janesville High School June 22.

Graduation exercises for the graduates of the rural schools of Rock county will be held at the high school building, Wednesday afternoon, June 22 at one o'clock. For several years previous to the organization of the county into one independent district, graduation exercises for the pupils of the rural schools of the east half of the county were held and were greatly enjoyed. This year it is expected that there will be a large attendance from all parts of the county. The program which is in the hands of County Superintendent O. D. Hundel provides for a number of fine musical selections; a spelling contest for all of the graduates or for other pupils from country schools who desire to take part; and Prof. R. A. Moore of the Wisconsin Agricultural College will deliver an address on "Agricultural Education."

CHILDREN'S DAY AT THE BAPTIST CHURCH

Exercises Will Be Held Tomorrow In Place of the Regular Morning Service.

Children's Day exercises at the Baptist church tomorrow morning at 10 o'clock will take the place of the regular morning service and there will be Sunday School. Sixteen children will receive diplomas of graduation from the Primary Department of the Sunday School and the babies born during the past year will be dedicated to God and their names added to the Cradle Roll. In the evening there will be the union service at the Presbyterian church. The program for the children's day exercises:

Processional—Orchestra and Primary Chorus.
Chorus—"A Song of Summer"—Primary Chorus.
Recitation—"The Birth of Children's Day"—Albert Carrier.
Song—"Abercrombie"—Young Ladies' Chorus.
Recitation—"The Tour of a Smile"—Edith Barker.
Dedication of babies.
Prayer.
Recitation—"Summer Message"—Frederick Taylor.
Recitation—"What a Flower Did"—Leroy Snyder.
Song—"The Violet"—Eight Kinder-gartners.
Recitation—"Our Children's Day"—Evelyn Isaac and Sarah Sanford.
Recitation—"The Cradle Roll"—Grace Scott.
Song—"Welcome"—By the School, No. 221.
Recitation—"Praise Ye Edmund Rice"—Ed. Freely (Glee)—Edmund Rice (Solo).
Collection.
Recitation—"The Shining Way"—Ruth Humphrey and Mahel Scott.
Song—"The Starry Night"—Mrs. Taylor.
Graduation Exercises.
Song—"Band of Loyal Workers"—Primary Chorus.
Recitation—"All Sunshine Maker"—Edmund Daugherty.
Recitation—"Love One Another"—Gertrude Smith.
Song—"A Cheerful Anthem"—Kinder-gartners.
Solo and Chorus—May Rice and Primary Girls.
Prayers—Primary Class.
Roll of Graduates.
Chorus—"Hazen Play, Rametta Smith, Leah Burpee, Helen Cannon, Helen Russell, Mary Rice, Rollin Baumgartner, Bessie Crossman, Belle McDonald, Ruth Rowley, Esther Barker, Dorothy Peck, Harold Bierberg, Vernon Wilson, Allen Work, Grace Bell."
Griffith Beers (Solo).
Dorothy Butler, Frances Barker, Robert Drake, Alice Hall, Everett Madocks, Dorothy Wagoner, Gloria Chase, Blanche Kennehan, Elizabeth Cook, Joseph Jollyman, John Hanchett, Jr., Katherine Wilson, Verna Horton, Lillian Jones, Glenn Williamson, Donald Barker, Elva Davis, Donald Schiller, Donald Erickson, James Little, Raymond Wolfe, Charles Sweet, Evelyn Case, Lorraine Jones, Kenneth Gifford, Nova Gordon.

Funeral of Former Avon Man Was Held Thursday.

Services Over Amund Hanson Were Held in Orfordville.

Orfordville, June 10.—Amund Hanson, a resident of Avon, but of late years a former of Pittsville, Wis., died at city June 6, and his remains were brought here Wednesday evening for burial. The funeral services were held Thursday afternoon at one o'clock. Rev. O. J. Kvade officiating. The deceased was 72 years of age, having been born in 1838. He leaves to mourn his death, four sons and two daughters, Mrs. George Lynn, Mrs. Olaf Swahn of Mrs. Oscar Lund of Argyle, Ill., Hans Lund of Pittsville, Wis., Glenn Lund of Broadhead, and Herman Lund of Aton.

An alarm of fire was turned in Wednesday from the home of E. D. Coryell, but the fire department was not needed, the blaze having been extinguished before their arrival.

Gerhart Gunderson, Elmer Wee and Miss Gertrude News attended commencement exercises at Albion on Thursday.

Mrs. O. A. Peterson and daughter, Nora, returned from Red Wing, Minn., Thursday evening, having attended graduation exercises.

Rev. O. J. Kvade spent Wednesday at Milwaukee.

L. O. O'Connell spent several days of his week in Milwaukee.

Mr. and Mrs. Levi Knudson of Broadhead were Orfordville callers on Thursday.

Ernest Silverthorn of Footville spent part of Wednesday in the village.

Prof. Aushback and Miss Bernice Overstrud attended commencement exercises at Albion academy on Thursday.

Mrs. Corn Peterson of Red Wing,

MINN. MESSRS. ALICE PETERSON

of Albion, N. Dakota, and Selmer Peterson of Albion, came "home" Friday morning to spend their summer vacation.

Mr. and Mrs. Ole Knudson, Mr. and Mrs. Chas. Erickson, Mrs. Christie Knudson, Mr. and Mrs. Olaf Olson, Messrs. Ole Dixon and Altek Knudson of Broadhead attended the funeral services of Amund Lund on Thursday.

Mrs. H. P. Silverthorn entertained a few ladies Friday afternoon, it being Mr. and Mrs. H. P. Silverthorn's seventh wedding anniversary.

Mr. and Mrs. Ben Cleveland of Albion spent Thursday in the village.

DIPLOMAS GIVEN TO MONROE GRADUATES

Commencement Exercises For Class of 27 High School Students Brought To A Close.

(SPECIAL TO THE GAZETTE.)

Monroe, Wis., June 11.—Twenty-seven pupils were graduated from the high school here this year. President F. J. Bolander awarded diplomas at the commencement exercises proper, and reminded the class of the value of their school experience. The class were admitted to the annual association at Turner hall last evening at the annual banquet and social party.

Mahlon Carndine was valedictorian of his class and Miss Laura Huggins was salutatorian. Miss Vera V. Klont delivered an essay on "Nature in Poetry." Miss Alma McGarrity delivered the essay, "Class Pictures." Miss Laura Hitter the "Address to the Graduates." Miss Edna Spent, the "Class Will." Miss Sylvia Karlen was official Santa Claus of the class, giving each member a memento. Miss Selma C. Kuegler, discussed "Miles of Travel" in an essay. Miss Bernice Joffe delivered the class prophecy, and Miss Elsie Crow gave the "Class Poem" an original composition.

The entire program was very interesting and at the conclusion the parents and friends moved forward to the stage to shower congratulations. Four Old Residents Dead.

Four of Monroe's old and well-known residents passed away at their homes in this city, all of them having had ailments of long standing. Henry Altman, who has been failing in health for a year, succumbed from a complication of ailments. He was a native of Switzerland and came to America in 1861. He has been a resident of Monroe since 1891. A widow, two brothers in America and two in Switzerland survive.

Daniel Nufziger has been afflicted with cancer for over twenty years. He also was born in Switzerland, emigrating to this country in the year 1880. He came to Green county and lived on a farm northwest of town until a few years ago when he and his wife moved into the city. He leaves four daughters, two sons, fifteen grandchildren in America and ten in Switzerland.

Mrs. Maria Mathar was a sufferer from diabetes and has been ill for two years. Besides her husband she leaves an aged mother, two children, two grandchildren and three sisters. She was born in the town of Adams in 1847 and was married to Rufus Shaffer in 1861. He died in 1891 and she married again in 1898 to C. C. Mathar, of this city.

P. R. Winter died at the home of his daughter, Mrs. M. E. Halter, aged 68 years. His death resulted from a stroke of paralysis. At the time of his death he was a member of John A. Davis post, G. A. R., of Orangeville and also a member of I. O. O. F. Mooms and M. W. A. The funeral will be held tomorrow afternoon at 1 o'clock at Orangeville.

Personal Items.

Misses Gladys Gungl, Zelma Gungl, Mahel Ward, Kathryn Jackson, Helen Snider, Florence Stearns and Olive Regez accompanied Miss Dorothy Young to Lake Kegonsa last morning and will be their guests until Monday.

Robert Twining and Clarence Twining have gone to Lake Mills to open up their summer cottage. Misses Louise Twining and Cora White will go later for an outing there.

Mr. and Mrs. A. C. Fragg and Miss Marguerite Hord have gone to Cedar Falls, Ia., where they will visit relatives for some time.

Mrs. Edwin Copeland and three children took their departure last evening for Chico, Cal., where they will spend a few weeks prior to returning to their home in the Philippines.

Mrs. Sam Wenger has gone to Appleton to attend the commencement exercises of Lawrence University of which she is a graduate.

Important Change in Time on C. & N. W. Ry., Effective Sunday, June 12.

Train 510 now leaves at 7:45 a. m., arriving at Chicago at 10:00 a. m.

Parlor car service from Janesville.

Train 504 now leaves at 6:35 p. m., arriving at Chicago at 9:00 p. m.

Parlor car service. Hot and cold trains making but one stop.

THE SECRET OUT.

Only One.

Little Jack's mother showed him a letter from a "new aunt," who had written to him in the most interesting manner. "What made my lovely complexion? I don't like to tell, for it was medicine, but the secret is a woman over took. I was Jane's favorite uncle. 'Mamma,' said Jack innocently, 'as he laboriously spelled out the signature, 'Della Payne,' 'does aunt pronounce; her front name in two syllables'—'Lip-plin-cit's'.

FISH INQUIRY AT A STANDSTILL

GRAND JURY PROBING INTO
BRIBERY SCANDAL TAKES
WEEK'S RECESS.

BURKE GETS ANOTHER LETTER

State's Attorney Receives Information
That Democratic Legislator Refused
\$2,500 Bribe Offered Him to Vote
for Lorimer for U. S. Senator.

Springfield, Ill., June 11.—The Sangamon county grand jury which is investigating the bribery scandal will adjourn this afternoon until June 20 and State's Attorney Burke will take a needed rest.

Otto Scherer of Beardstown was the only witness examined by the jury. He admitted having collected money for the fight against the fish bill, but declared that he thought it was to reimburse Frank J. Trout of Beardstown for the expense the latter had incurred lobbying against the bill.

Turns Down Bribe.
Another important letter has reached Mr. Burke. It comes from a most reputable source and tells of another Democratic legislator who was offered a bribe to vote for Lorimer, and turned it down.

A letter was received from F. W. Putter of Henry, an attorney who represented the anti-fish bill lobbyists during the session of the legislature in which he stated that he will come to Springfield any time Mr. Burke desires.

Johnson Lawrence, Republican representative of Polo, telephoned acknowledging service of a subpoena and was instructed to appear at Springfield when the grand jury reconvenes.

Won't Be Diverted.
Despite the fact that various persons have apparently tried to lead State's Attorney Burke away from the fish bill "jackpot," by suggesting manifold other supposed bribery cases, he refuses to be diverted.

As he was starting away from Springfield he declared that he will go to the bottom of the "fish jackpot," because he is convinced that it will lead him to the legislative "jackpot," and simultaneously to the "man higher up."

BREWERS ACCUSE SALOON MEN

Four indicted at Cincinnati on Evidence of Beermakers.

Cincinnati, June 11.—Four saloon proprietors of Cincinnati were indicted by the Hamilton county grand jury after that body had heard evidence collected by the Ohio brewers' vigilance bureau. The presentments charge the men with conducting "unlawful" violation of law.

The cases have attracted considerable attention as they were the first results of a campaign which, the brewery interests have announced, is to be carried on in all "wet" territory in the state. The brewers claim that if dives and objectionable saloons are eliminated, prohibition sentiment will become a thing of the past.

I. C. FILES SUIT FOR \$300,000.

Makes Memphis Car Company Defendant, Alleging Conspiracy.

Memphis, Tenn., June 11.—Charging the existence of a conspiracy through which the Illinois Central Railroad company has been defrauded out of \$2,000,000 by former employees and various corporations, suit for \$300,000 was filed in the chancery court against the Memphis Car company. Chancellor F. H. Holbeck granted a temporary injunction restraining the company from moving any of its property from the state.

PATENT BABY FOOD IS DEADLY.

Sensational Charge at American Medical Convention at St. Louis.

St. Louis, June 11.—Patent baby foods caused nine out of ten deaths of infants in summer, declared Dr. L. P. Royaster, Norfolk, Va., before the American Medical association.

"Mother's," he said, "don't realize that fresh air is the best medicine for the little ones."

Dr. W. A. Evans of Chicago declared that hot school rooms cause immorality among children.

DEMOCRAT IS G. O. P. CANDIDATE

Son of Confederate Soldier in Race for Governor of Arkansas.

Little Rock, Ark., June 11.—The state Republican convention here unanimously nominated for governor Andrew L. Holland of Hot Springs county, son of a Confederate soldier, and three times elected judge of that county by Democrats. The feature of the convention was the tremendous cheering of the resolutions which were adopted halting the return to his native land of ex-President Roosevelt.

Alfonso Visits Specialist.

Harris, June 11.—King Alfonso passed through here in an automobile to Henderson, where he will consult Doctor Moore, a throat specialist. The king's visits to the specialist are becoming frequent.

Pope Greets Sixty Americans.

Rome, June 11.—The pope received 60 American pilgrims led by Bishop John J. Heenan of Wichita, Kan., who presented the Pope's pence. The pope addressed them briefly.

Not to Be Trusted.

A society made up of men who obey because they have to is worthless.

WESTERN UNION IS UNDER INDICTMENT.

Charged by Federal Grand Jury With
Violations of National Bucket
Shop Law.

Washington, June 11.—The federal grand jury returned an indictment against the Western Union Telegraph company, charging it with 42 violations of the bucketshop law of March 1, 1909.

The 42 counts in the indictment vary only in the date on which the alleged violations are said to have occurred.

The indictments are based on a fast wire service alleged to have been supplied by the telegraph company to the Standard Stock and Grain Dealers of Jersey City.

The specific charge against the Western Union is that it assisted various offenders previously indicted in the conduct of bucketshops in the District of Columbia.

The indictments are the outgrowth of the nationwide bucketshop raid conducted some weeks ago under the direction of Attorney General Wickersham.

Under the law the Western Union is liable to a fine of \$1,000 for each of the 42 counts in the indictment filed.

An additional indictment was also handed down against Price & Co., charging them, in addition to having conspired to operate a bucketshop, with the actual operation of such an institution in the District of Columbia.

TO END CAREER AS AMERICAN.

Frank J. Gould Announces He Will
Renounce His Country.

Paris, June 11.—Frank J. Gould, sixth child of Jay Gould, announced to his intimate friends his intention of renouncing America as a place of residence and making Paris his permanent home.

Mr. Gould said also that he had two other ideas which he intends to carry into effect. The first is to make himself a great playwright and theatrical manager. The second is to wrest from William K. Vanderbilt his supremacy on the French turf.

Cloakmakers to Strike.

Boston, June 11.—A general strike of from 20,000 to 30,000 cloakmakers in New York City was authorized by the "Ladies Garment Workers' International union which is in session in this city. The convention voted to leave the date and arrangements for the strike in the hands of a special committee.

WILL SUE UNION STOCK YARDS.

Government Charges Company Main-
tains Monopoly of Cattle Business.

Washington, June 11.—W. A. Royston, assistant to Attorney General Wickersham, left for Chicago to file a suit against the Union Stockyards company of that city. The suit will be unique in that it is under the Hepburn railway rate act. The details of the suit have not been made public. The complaint is that the Stockyards company is maintaining a monopoly of the cattle shipment business of Chicago and is violating the Hepburn act by its relations with cattle raisers and those who purchase the cattle.

TWO CHICAGO BANKS TO UNITE.

Merger of Commercial and Continental
Nationally Virtually Agreed On.

Chicago, June 11.—Consolidation of the Commercial National and the Continental National banks of Chicago virtually was accomplished at a conference of committees appointed by the boards of directors of the two institutions to work out the terms.

What the terms of the consolidation are the members of the committees refused to divulge in advance of their report to their directors.

The combination of these two institutions will make not only the largest bank in Chicago, but the largest in the United States in point of deposits.

The latest official reports published showed the Continental to have \$35,258,583 deposits and the Commercial \$72,866,328, or a total of \$117,144,911.

Canada Is Asking for a Treaty.
Washington, June 11.—Canada has indicated to the secretary of state its desire to take up as early as possible the negotiation of a trade treaty with the United States.

Smoker Who Found Himself.

It is doubtful whether the con-
firmed "smoker" ever really enjoys
smoking. The habit becomes merely
mechanical. M. Maeterlinck hit upon
a happy expedient whereby he con-
tinued to enjoy the pleasure of his
pipe and at the same time guarded
against its injurious effects. He is,
"Without the help of tobacco," writes
a recent biographer, "he seemed in-
capable of inspiration or crystallizing
it in words. If he has not overcome
the need he has outwitted it. Smok-
ing, he noticed, had lost its virtue
as a stimulant, and instead of rousing
the brain to activity, as at first, had
come to disturb its functions; so now,
in lieu of ordinary tobacco, he fills his
bowl with a de-ionized tobacco prepa-
ration, tasteless indeed, but harmless.
His pipe is still always alight when
the pen is busy, but it is hardly now
more than an innocent substitute in-
tended to cheat and to satisfy an in-
resistible mechanical craving."

Famed as Cat Photographer.

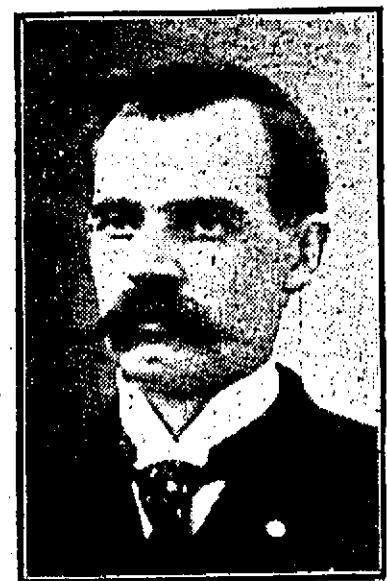

A Boston woman photographer
makes a feature of her cat photo-
graphs and has an exhibition in her
studio of the pampered cats of Back
Bay that is attracting much attention.
There are probably more of these
pampered cats in Boston than in any
other city in the country.

Chiropractic, The Greatest of All Sciences. Ailments of All Kinds Banish Before It. Lives Saved.

The Late King Edward VII could have been saved had he investi-
gated Chiropractic. Chiropractic removes the cause of disease.

It does not treat symptoms. Symptoms are only the
effects of the ailment, not the ailment itself. If you
would rid mankind of disease, REMOVE THE
CAUSE.

The best thing in the world is perfect health. It's better than
riches. It's the most important part of happiness, and there is only
one way to be in perfect health—viz. Drive disease from the body
by removing the cause of the disease. The old methods of treating
the symptoms with drugs and poisons are not a success. With all
the science of medicine and surgery we have more sickness today
than ever before. The wise ones read the hand writing on the wall.
The message is plain—Don't trust to guesswork and old time foggy
ideas. If you are sick, come to the Chiropractor and be made well.

Some terrible disease may be taking hold of you right now and you
will realize that it is cheaper to be made well than to be sick and
probably die.

King Edward died of Bronchial trouble and Pneumonia. These
diseases are caused because the nerves leading to the bron-
chials and the lungs are not furnishing the proper amount of nerve
energy to keep them normal. The nerves pass through the spinal
column at the 1st and 3rd dorsal vertebra. An examination of the
spine will reveal to a Chiropractor the cause of the trouble. An ad-
justment of the spine where these nerves pass through so that they
may furnish the nervous energy and the functions will remain in
perfect condition. Disease will disappear. Kings, Potentates, men,
women or children, it matters not to nature, all are alike. One as
liable to disease as another, one can be made well as easy as another.

These drawings show the vertebrae in correct po-
sition and in misplaced position. A severe cold,
coughing excessively, a fall or accident or continued
straining of the back in a certain position will mis-
place a vertebra as well as other more serious causes.

See drawing "B", the misplaced vertebra. The
arrow "1" points to the side of the vertebra tipped
down. Note the small space between the two ver-
tebrae. Hundreds of nerves pass through this space
leading to the bronchials. The small space pinches
the nerves and they cannot perform their proper
functions. The bronchials become weakened due to
lack of nervous energy and soon become diseased.
Arrow "2" points to the other side of the same ver-
tebra tipped up, showing the small space through
which the nerves to the lungs must pass. Because
the space is so small the nerves cannot furnish en-
ergy to the lungs and the lungs become weakened and
diseased through lack of energy.

It was these vertebrae out of place that caused
King Edward's death.

Drawing "A" shows the vertebra in correct po-
sition with normal space on both sides so that the
nerves have room to act naturally, thus keeping the
functions in a healthy condition.

Chiropractic (ki-ro-prak-tik) adjustments straighten out the
vertebrae, thus removing the cause of the ailment.

HERE IS THE PLACE IN THE SPINE OF JOHN D. ROCKEFEL-
LER THAT IS CAUSING HIM ALL OF HIS
STOMACH SUFFERING.

Many cases similar have been adjusted by
Chiropractic. Some appear in different places and
cause different ailments. But no matter what
your case is—I will tell you whether or not you
can be made well and no charge is made for ex-
amination.

Not long after John D. Rockefeller came into
prominence as a result of the greatest finan-
cial organization of the age, The Standard Oil
Co., it was discovered by himself and family that
his stomach had gone back on him. Many have
discovered this just as did John D. when everything that they eat
don't agree with them and they lay awake nights as a result of
something they eat.

Then began the greatest battle that John D. ever fought and he
instituted the most vigilant search of his career. It was his life that
was at stake.

All of the skilled medical aid
of the country came forward and
offered their skill and knowledge
but medical science failed and so
has everything else that John D.
has tried and he was forced to re-
tire from the vast business inter-
ests that he had built up and put
it in the hands of someone else.

The only great science that John
D. has never tried and the only
science that will permanently re-
lieve him is Chiropractic. This
science will correct the original
cause of all of his suffering and

that is the only way that John D.
Rockefeller can ever regain the
health that will make him and his
loved ones happy again.

At a recent meeting of the Associ-
ated Public Healths Managing Physi-
cians Dr. Ross, Sup. Hospital, Buffa-
lo, N. Y., said that there were 300 per
cent less drugs given than ever before
and that many of the now hospitals
were giving no drugs at all.

In the coming generations, a medi-
cal man will be a source of wonder-
ment. He will be classed with the
extinct species. People will say that
the man who tried to cure a sick man
by poisoning him with drugs was as
far from the truth as people who be-
lieved the world was square.

Scientists all over the country are

producing in animals almost any dis-
ease they want by simply putting a
pressure on the spine and keeping it
there until it remains in that place,
and then when the disease gets real
bad they cure the animal by adjusting
the spine to normal conditions.

There are about 200,000,000 nerves
in the body, and all these nerves pass
through the spine, spreading out to the
body at the different places on the
spine between the vertebrae. When
there is a subluxation of a vertebra
(when it is out of place) it causes a
pressure on these nerves, and they
cannot then furnish the energy to
that part of the body they are meant
to support. The first thing that you
know you are down with disease. If
I remove this pressure, and permit the
nerves to perform their functions, you
get well. That is what I mean when I
say that I remove the cause.

Thousands of cases are made well
each year by the Chiropractic Science,
after all others have failed and I
have made many people well right
here in Janesville and I have had
thought there was no hope for them.
75 per cent of the cases that come to
the Chiropractors are given up by
doctors, yet the average number of
people who are made well by the
Chiropractors is 98 per cent of all who
take adjustments.

Illustration No. 2 shows the first
cervical vertebra of the neck out of
place. This will cause Neuralgia
in the head. A woman who had
suffered for many years was in this
condition. She came to me and
I found that the subluxation was
pinching the nerves and cutting off
the nerve force. Several adjustments
set it back in place and the lady was
never troubled since with Neuralgia.
A great many of these cases come to
me. The subluxation is not always
in the same place and the neuralgia
is in the different parts of the body.

Illustration No. 3. A young man
who had a bad fall and subluxated
the second cervical vertebra of the
neck shutting off the nerve forces
to the brain and the result was he
became violently insane; this was
adjusted and the young man be-
came rational again. The Chiro-
practors find a great many cases like
this one where there is a slight
subluxation at this same vertebra that
causes people to become fanatics on
any one subject but if they are not
disturbed they will go along for a
life time without doing any harm to
anyone or any particular good, but
if they are disturbed as in the case
of Harry Thaw, when he was dis-
turbed by White, actions of the nerves
passing down his neck irritating
the muscles of the neck causing
a muscular contraction of the neck
putting a greater pressure on the
main nerve to the brain, causing him
to lose control of his mind and leav-
ing him with nothing but murder on
his brain. But after his arrest and
lying in his cell a few days and
being satisfied of the fact that he had
gotten his revenge then his mind be-
came cooled off, the irritation of the
nerves ceased and then he became
rational again. But he will never be
normal until he has this vertebra ad-
justed. And if this vertebra had been
normal nothing would have caused
him to murder White.

Illustration No. 4. A young
man who had suffered with ear-
rache for many years. We ad-
justed the third vertebra of his
neck, freed the nerves to ears
and head, and he is now free
from catarrh and deafness.

Illustration No. 5. A boy with a
bad case of tonsillitis was brought
to my office and on examination I
found fourth cervical vertebra of
the neck subluxated and three
adjustments removed the cause
of his trouble and he is a well boy to-
day.

Illustration No. 6. A very easy matter to overcome
these simple diseases, yet many chil-
dren are allowed to get into very
critical conditions. It simply proves
the superiority of the Chiropractic
science.

Illustration No. 7. A case of a
lady with a bad cough and bron-
chitis caused by a subluxation of
the 6th cervical vertebra pressing
the nerves ramifying the bron-
chial tubes and causing severe
coughing spells. This was readily
overcome by adjusting the vertebra to
normal position. Similar cases are of
frequent occurrence and I have made

many people well who were affected
by the same trouble.

Illustration No. 8 shows the 7th
vertebra of the neck out of place.
A case in point is that of a man
who had paralysis on one side,
and the heart was weak, caused by
the dislocated vertebra pressing
on the nerves leading to the brain
and shutting off the nervous energy.
By adjusting the vertebra, the normal
condition was restored and the man
was made well.

We have a great many of these
cases, and 98 per cent were made
well.

Illustration No. 9. Consumption in
a young man. The Case 9. Con-
sumption in a young lady. The
second and third dorsal vertebrae
were found in a lateral subluxated
condition, throwing a pressure
on the nerves that ramify the lungs,
causing congestion of the lungs, which
throw the patient into consumption.
By replacing the vertebrae in their
normal position and removing the pres-
sure from these nerves it gives nature a
chance to restore perfect health.

We have had a large per cent of
these cases, and all were either made
well or much benefited.

Consumption is not contagious, as
very many people associate with these
cases daily, and yet are no more liable
to contract this disease than men en-
gaged in other callings.

Bronchitis is started with a cold or
catarrhal condition of the head, the
discharge therefrom running down the
bronchial tubes which irritates the
nerves, and causing contraction of the
muscles which produces a subluxa-
tion of the first and second dorsal
vertebrae. The result is Bronchitis.
By replacing these dorsal vertebrae I
restore the natural condition and the
disease disappears immediately.

Illustration No. 10. Lady blind
most of time for 5 years; tumor on
one side of eye-balls. The vertebra
of the first and second cervical
were shutting off the nerves
leading to eyes.

She suffered intensely. These vertebrae were ad-
justed to normal position and she re-
gained her sight and became well.

Cases of eye diseases of various
kinds are brought to me. All have
been made well when adjustments
were taken. We find that pres-
sure on the nerves leading to dif-
ferent parts of the eye causes the dif-
ferent diseases; so the dislocation is
not always at the same place in spine.

Illustration No. 11. A nationally
known man suffered with dys-
pepsia and indigestion for many
years. Adjusted the vertebra of
the spine at 5th, 6th and 7th dor-
sal vertebrae, re-
storing the nervous energy to the
stomach, and he can now eat
any kind of food without trouble.

Hundreds of my cases are of
this nature. All are made entirely
well and at a smaller cost than you
would pay to a doctor, without getting
permanent relief.

Illustration No. 12. A successful
plumber had enlargement of the
liver from a contracted faster of
nutrition. Severe
cramps were al-
ways felt. When
examined by the
Chiropractor the
cause of the dis-
ease was immedi-
ately located. This
case was en-
tirely overcome
by adjusting spine at 7th, 8th and 9th
dorsal vertebrae, thus loosening the
nerves to liver, forcing new energy.

In biliousness the liver is often
overworked by eating more food than
needed, and then when it can supply
no more, it is forced into activity by
laxatives, until the trouble ends in
chronic constipation. These people can
all become well by Chiropractic Ad-
justment, freeing nerves to liver and
bowels. I have more of these cases
than any other kind. It takes consid-
erable time when case is chronic, but
can always be successfully handled.
If laxatives are continued or other
drugs it will end in stroke of paralysis.

DISEASES OF HEART.

Illustration No. 12. Prominent
business man found he had a
weak heart and that the beats
were not regular. He sold out his
business expecting to retire. He
finally called on a Chiropractor
found 2nd and 4th dorsal vertebrae
subluxated. By replacing vertebrae
we removed the pressure from
the nerves which restored it to nor-
mal, and the man was made well im-
mediately. This man went back into
active business.

We have a great many cases of
weak heart, and usually we are com-
pelled to remove some other lesion
where there is a congestion, to light-
en the work of the heart.

KIDNEY TROUBLE AND BRIGHT'S
DISEASES.

Illustration No. 14. A middle
aged man had a severe case of
Bright's disease, his limbs were
swollen and sores were
breaking out. He had been
given up as incurable and fully
expected to die. However, he called in a chiro-
practor. Spine was adjusted at
11th and 12th dorsal vertebrae and 1th and 5th lum-
bar and freeing the nerves to hips
and the case was soon dismissed, al-
though success for this great new
science of Chiropractic.

I have many of these cases, and
find the dislocations all about the
same. Most of these cases are brought
on by overwork, heavy lifting, a fall
or insufficient amount of rest.

APPENDICITIS.

Illustration No. 15. A manager of
a large corporation was made
well by removing the dislocation of
2nd and 3rd lumbar, see illustration,
thereby re-
lieving the pres-
sure on the ap-
pendix nerve's, thus
restoring normal conditions
which means per-
fect health.

Hundreds of cases of appendi-
citis, many of
them so bad that operation was de-
manded, have all been made well by
the Chiropractic Adjustment by re-
moving these conditions of spine with-
out any operation. I have never seen
a case requiring operation, as the
healing will take place by removing
the trouble at spine.

FEMALE TROUBLES AND CONSTI-
PATION.

Illustration No. 16. One na-
tionally prominent lady who has
witnessed many cases of misplace-
ment and other female troubles
during successful adjustments at the Chiropractic
college, said: "If you have dis-
covered nothing more than this
way of curing these diseases
without surgical operations, you have
done more to bless suffering women
than anyone who has ever lived."

I usually find a subluxation at
the fourth and fifth lumbar vertebrae,
also sixth and seventh dorsal, causing
prolapsed and misplacements. These
are all corrected even when adhesions
have formed. Tumors are easily re-
duced and growth stopped. This kind
constitutes the largest percentage of
our cases.

Illustration No. 17. A successful
plumber had enlargement of the
liver from a contracted faster of
nutrition. Severe
cramps were al-
ways felt. When
examined by the
Chiropractor the
cause of the dis-
ease was immedi-
ately located. This
case was en-
tirely overcome
by adjusting spine at 7th, 8th and 9th
dorsal vertebrae, thus loosening the
nerves to liver, forcing new energy.

FORTY YEARS AGO

Janesville Daily Gazette, June 11, 1870.—Base Ball.—Mutuals victors by One Run.—Yesterday afternoon the Mendota Club of Madison visited this city to play the second game of the series with our Mutuals. They were a fine looking set of young men and were dressed in a neat white uniform, which looked very handsome. The day was beautiful and a large crowd had gathered to witness the sport. Dr. J. W. St. John was selected umpire. The playing on both sides was excellent. On the part of the Mendotas, Hulce, Wells, Adams, and Noyce played splendidly, while all did well. Of the Mutuals, Marston, at second, outdid himself, both in the field and at bat. In the 7th inning, he made a clean home run, besides bringing three men in before him. F. Smith at center field was also excellent and Conant ditto. While Holter, Loughen, Hart, B. Smith and Sutherland were not far behind. The umpire was very fair and the best of feeling prevailed throughout the game. The Mendotas left for

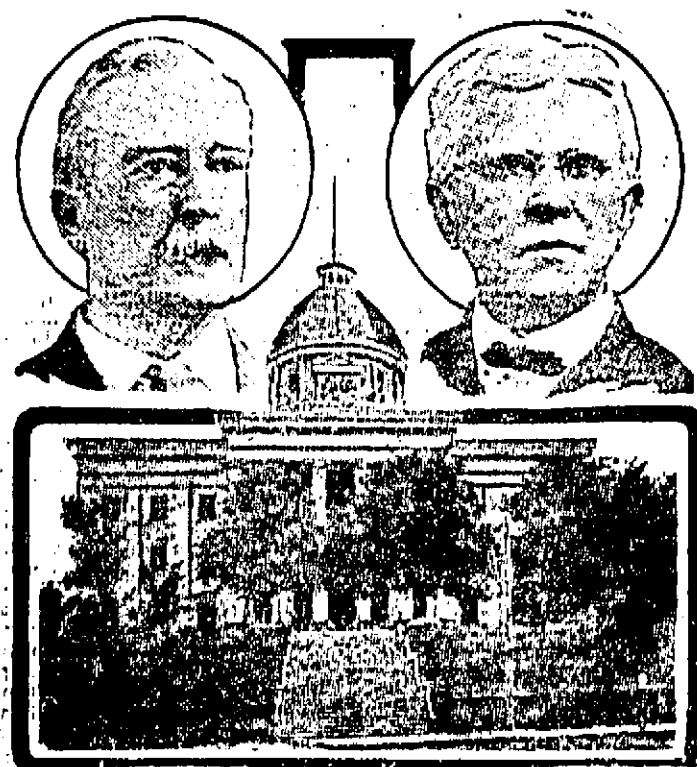

Whitewater this morning to play the Athletics today.

Jottings.—Mr. William H. Tripp, of the town of Rock, has an apple orchard containing 1500 trees. Rock river at this point is fordable just below the upper dam. Teams have been engaged in hauling gravel from the bed of the stream for some days.

Butchers in this city find it quite difficult to obtain good cattle with which to supply their markets with beef.

Good milling spring wheat is quoted in this market at from 101 to 109. Strawberries raised in this vicinity, which are now on sale in this market, are anything but large and plump. Their looks tell a pitiful story of the drought. They sell at from twenty to twenty-five cents per quart.

A new bakery establishment is to be opened in this city on Monday next by Mr. H. P. Krzywicki at 113 West Milwaukee street.

ALABAMA IN HOT FIGHT FOR GOVERNOR AND LOCAL OPTION. Emmet A. O'Neill, who defeated H. S. D. Mallory in the Democratic primaries for nomination for governor.

Montgomery, Ala.—Emmet A. O'Neill, leader of the fight against the recently proposed amendment to put prohibition into the constitution of Alabama, defeated H. S. D. Mallory, a supporter of the amendment, by a majority of between 20,000 and 25,000, for governor in the recent Democratic primary in Alabama. It is accepted as certain that the state-wide prohibition laws of the state will be modified. The anti-amendment candidates on the state ticket also made a clean sweep. The nomination of O'Neill, a life-long opponent of statewide prohibition, and the adoption of a clean-cut, unequivocal declaration for local option at the Democratic state convention was a considerable surprise to many. Political leaders declare that a majority of the next senate and a large majority of the next house are earnestly in favor of local option, and that the passage of a local option bill by the legislature, which meets in January, is an absolutely certain as anything in politics can be.

The convention was one of the most noted in the annals of the state. In spite of hopeful claims by the prohibitionists the convention showed an overwhelming preponderance of votes in favor of local option. It not only specifically declared for local option for Alabama, a state that has the most drastic prohibition laws in the Union, but it also repudiated the anti-prohibition and anti-capital laws which, in this state, accompanied prohibition legislation. The majority in the convention allowed the minority to have its full say, and to make its fight in its own way. But after being in session all day and until after midnight it repudiated statewide prohibition and declared for local option by a decided majority.

Franks of Lightning. In 1866, after an awful thunder clap, a young man saw an immense ball of fire fall at his feet. It did no damage to him, and then passed harmlessly through a nearby house, in which were unhurt nine people, and then only lit a box of matches. It then took its way to a nearby barn and killed six cows. Lightning will sometimes sketch pictures on its victims, and seems to know colors, for it sometimes strikes a huddle of sheep, selecting and killing only the white ones, and again it may kill only black ones. It may strike a spotted cow, and show only on the spot. Of our trees the oak is the most stricken, the maple least. A tree is not burnt and exploded by the steam from the sap, as some news stories say, but by explosion of compressed air, for an old dry dead tree will also so explode.

The Lost Plug Hat. "The old proverb, 'Findin' is keepin',' usually holds good in the case of a silk hat," said the man. "Persons who lose silk hats are always reluctant to claim them. I have found excellent silk hats, and I know other people who have found hats just as good, but nobody ever tried to get them back. They were well worth advertising for, too. Who can explain this disregard for any silk hats? Is it due to modesty? Were they lost under conditions so incriminating that the loser would rather buy another hat than reveal his whereabouts and the circumstances that caused him to lose his hat? That hypothesis hardly seems tenable, because most silk hats are picked up in very reputable places. Still the fact remains that any person finding a silk hat is pretty sure to be allowed to replace in its possession unmolested by the owner."—New York Sun.

THE NEW HOTEL BALDWIN. BEACH HAVEN, N. J. Every room commands a view of ocean or bay. Unsurpassed cuisine. Reasonable prices. Estate of Chas. T. Parry, owner. W. Mercer Hotel, Mgr.

Original Cause of War. It is useless to try to establish universal peace as long as people will get married.—Turner Falls Reporter.

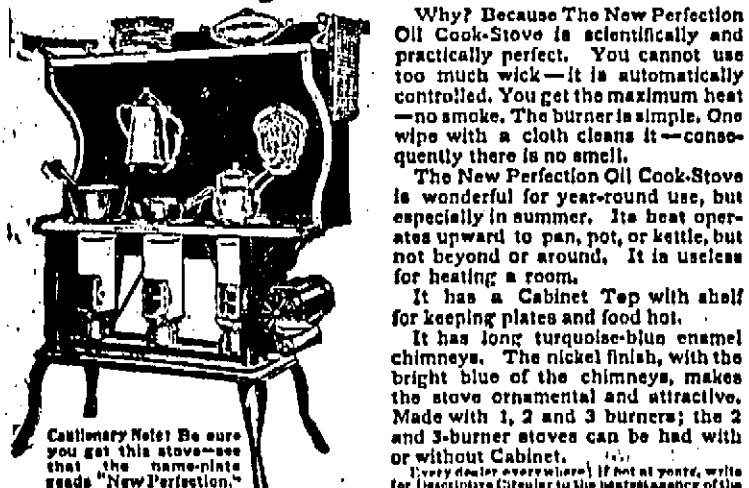

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Standard Oil Company (Incorporated)

Where Ignorance is Bliss. Who ever heard of a man who put in his eight or twelve hours a day in physical effort, actual muscular work, having time to bother about his insides; most of them are unaware of the fact that they have anything beneath their skins besides a heart and a stomach.

Cleopatra's Hair Dyed. History has many instances of the blonde type. A learned Englishman has discovered in some ancient gospel writers on papyrus, that the beautiful Cleopatra had the fox red hair of all the Ptolemys, and resorted to dyes and cosmetics to keep up her reputation for good looks.

TO GET ANSWER TO LETTER

Simple Plan That is Not Only Effective But Really a Requirement of Courtesy.

You may have occasion often to write a letter of inquiry to a stranger who is under no obligation whatever to answer your question unless he shall see fit to do so out of kindness or fellow feeling. How are you to make reasonably certain of a reply?

It is taken for granted that your inquiry is reasonable and in good taste and judgment. You have something to ask as a favor. You should make that request as simple of answer as possible. You should make your question as brief as you can.

To this end leave at the end of your written query enough space blank on which the person addressed can fill in answers fully and without formality, and call his attention to the fact.

Enclose with your query an envelope addressed to yourself stamped and ready for the mails.

Here is the philosophy of the plan: Many persons are inclined to put off letter writing of any kind. They must be in the mood for it. They "own" letters to some of their best friends. Letter writing, anyhow, is a bore.

But even to the person in this position a query with a blank space for answer at the bottom of the sheet, the envelope addressed and stamped, makes it doubly easy for the writer to scribble at once with lead pencil the answer, refold the sheet, put it in the envelope, and post it. Try it. You'll get results.

A Forgotten Art.

New Customer—I see you have Van Halstun for a customer. Are you aware that his ancestors came across on the Mayflower?

Tailor—No? It's too bad he doesn't try to emulate their noble deed.

"What do you mean?"

"I made him two suits, and he hasn't come across yet."—Puck.

Liner on which Roosevelt will return to America. Imperial suite which has been assigned to him.

Kaiserin Augusta Victoria.

New York—Colonel Roosevelt will return from London on the Kaiserin Augusta Victoria of the Hamburg-American line. The ex-president has been given the imperial suite which has been refitted extensively in preparation for the honored guest. It consists of a drawing room, a bedroom, a dressing or breakfast room and

parlor for the honored guest. It consists of a drawing room, a bedroom, a dressing or breakfast room and

lath. In addition to this he will have access to the gymnasium, in which it is expected he will spend part of his time each day. The boat is in command of Capt. Hans Riser. It is 25,000 tons displacement, is one of the finest examples of marine architecture and marine engineering art, and is really an ocean "sky scraper," with every luxury and every safety device which the twentieth century can suggest.

GRANDPA SCATTERGOOD.

The Ticklemouse

—and his Sleepyland Adventures

By Roy Rutherford Bailey with Davy and Dorfy

Dodging the Breakfast Bell

YOU can't guess," said Dorfy, dancing about the quiet nursery, "what Davy and I found this afternoon!"

The Ticklemouse smiled wisely. Willy, who was sitting in a soft nest, looked up at him. "How would a bluebird's nest do?"

"Why, how in the wide world did you know, Willy? Were you there, all the time?" asked the surprised Willy.

"Well, I heard most of it," grinned Willy. "I heard you wishing you were twin bluebird babies. Was that a joke, or did you mean it?"

"Oh, truly! Davy and I thought it would be such a picnic to be little fuzzy bluebirds in a soft nest. Conso, I don't know how it would be at meal time, but I s'pose we'd get used to the angworms and thins."

"Let's try it, then." The Ticklemouse took a tiny toy cuckoo clock from the twins' box of playthings. When they reached the hollow tree with the bluebirds' nest in it, they fastened the clock on the tree trunk just above the knot-hole.

"To hurry up the time o' night in birdland," he explained, seeing Dorfy's puzzled look. "We can't be out here after sunrise, so we must make birdland time go faster than the regular time. Don't understand? Well, just watch."

He rigged a long-handled key out of a bit of wire and wound the cuckoo clock up fast as his paw could spin around. The cuckoo bird stuck her head out of the knot-hole, blue and frightened in the pale moonlight.

"Good! Just right. Four eggs, are there?"

"Five this time, Ticklebrother—and I'm so happy!"

"To be sure. Now, Davy and Dorfy, peep in at these little eggs while mother lifts her wing a bit. Still want to be bluebird twins?"

"Yes, oh yes—Please!"

"Correct! Now, Willy, touch off the clock and wish quick, or hatching time will catch us before we're inside the shell!"

Willy wished. Suddenly the twins found themselves in the darkness. Something warm and soft snuggled close above their tiny shells—they could feel the mother bird moving uneasily over-

head. Each of the four felt suddenly anxious to see daylight—it was very dark, indeed, inside the egg.

"Cuckoo! Cuckoo! Dr-r-r-r cuckoo!" They could hear the clock buzzing around like mad, and in a twinkling two days and three nights—in birdland time—had spun past.

"Peep, peep!" Dorfy's little yellow bill broke through the shell first; then Willy, Davy and the Ticklemouse, looking odd enough in their feathered suits—and last of all one little regular bluebird baby.

"My dears! my darlings!" chirped the happy mother bird, cuddling them all close to her breast. "Hurry and get off—please get off!"

"Get off—please get off!" chirped the struggling Davy-bird. "Ouch—you stuck your wing in my eye!"

"Ouch—you stuck your wing in my eye!" chirped the Dorfy-bird, fluttering about the nest till the mother bird was almost frantic.

"What's all this racket?" sang the father bird, suddenly appearing at the knot-hole. "Haven't hatched already, have they?"

"Yes, my dear—and they're acting so queer!" wailed his wife. "Hurry and get them some breakfast!"

"That means angworms!" peeped the Dorfy-bird, as the father flew away. The two bluebirds winked at each other. "Quick, let's go home!" peeped the Davy-bird. "I don't want any angworms!" And nothing would do but Willy should wish them back into Sleepyland twigs again.

"If it had been cheese, now!" said the Ticklemouse, as they reached the nursery.

MINISTER STOPS DUKE WEDDING

Preacher Refuses to Hitch Divorced Tobacco Man to Fourth Bride.

Washington, June 11.—Brodie L. Duke, the much-married and oft-divorced millionaire tobacco man, almost got married—for the fourth time—in Washington. He had the license and the consent of the lady, Miss Wynona Roschelle, aged twenty-two, of Durham, N. C. The only obstacle to a wedding was the clergyman, Rev. Donald J. MacLeod, whom Mr. Duke had named in the license, balking at performing the ceremony when informed of Mr. Duke's previous matrimonial ventures.

HAMMERSTEIN APPEALS CASE.

State Department Asked for Instructions on Russia's Refusal.

Washington, June 11.—Refusal of the Russian minister of the interior to accept Oscar Hammerstein's passport and permit him to carry out his proposed Russian trip has been communicated to the state department. The American embassy at St. Petersburg has cabled a brief summary of the case and has asked for instructions. The state department regrets the incident, as there has been a consistent plan for some time looking to more favorable treatment for American Jews in Russia.

HULL IS PROHIBITION NOMINEE

Receives Two Votes in Primary, So Is the Lawful Candidate.

Des Moines, Ia., June 11.—Congressman J. A. T. Hull, who was defeated for the Republican nomination for congress from the Seventh district by the Progressive candidate, Judge S. E. Prouty, can oppose Prouty at the election this fall, if he so desires. Captain Hull was nominated for congress on the Prohibition ticket. The Prohibitionists had no candidate for congress, the choice being left to the voter, and Captain Hull's name was written by two voters.

MRS. TAFT TAKES LAKE CRUISE.

Boards Tug at Ashtabula for Trip to Duluth.

Ashtabula, O., June 11.—Mrs. William H. Taft, wife of the president, accompanied by her sister, Mrs. James Langhlin of Pittsburgh, Pa., came yesterday into Ashtabula and boarded the tug James Langhlin for a trip to Duluth and return.

The trip is taken in the hope that it will do Mrs. Taft much good, as her health has not been of the best lately.

Paint Kills Prize Cows.

Washington, Pa., June 11.—A dot of paint was fatal to three registered Jersey cows belonging to Henry Hill farmers. A can of paint had been thrown into the pasture. After the cows ate the paint they ran about, trying to get one another.

Four Earthquakes in California.

Santa Clara, Cal., June 11.—Four distinct earthquake shocks were registered by the seismograph at Santa Clara college. The entire movement lasted about three minutes.

Matter of Fact.

"Mine is a trying situation," remarked Beatrice Bustle, the beautiful clock model.—Minnesota Star.

How the Overlands Won Their Way

The Overland, of course, is a piece of marvelous mechanism. But we leave to our catalog the description of technical details. Here are some facts which all men understand—the most apparent advantages of these remarkable cars. These are the reasons which, more than all others, have made the Overlands the popular cars of the day.

THE FAITHFUL ENGINE

The chief attainment of the Overland designers has been their excellent engine. Its silence, its power, its freedom from trouble, its ability to always keep going.

It has been run 7,000 miles without stopping—run with three shifts of men 21 hours per day, over rough country roads with four men in the car. It has been run 17,000 miles without cleaning a spark plug. And numerous owners report from 7,000 to 10,000 miles without any attention whatever.

Such an engine is the rarest creation of automobile designers. It is the greatest comfort which an owner can get in his car.

MATCHLESS SIMPLICITY

Next to the engine, the chief charm of the Overland lies in its wondrous simplicity. . . . There are fewer parts in the Overland than in any other automobile. In one place our designers have created one part which takes the place of forty-seven. Every part saved is one part less to get loose—one less to cause breakdown or trouble.

Then a 10-year-old child can master the Overland car in ten minutes. A novice can run it a thousand miles and back.

Three of the models operate by pedal control. Push a pedal forward to go ahead, and backward to reverse. Push another pedal forward to change to high speed. It is as simple as walking. The hands have nothing to do but steer. The Government is using Overland cars in its mail service because anyone can run them and care for them.

Few motor car owners are expert mechanics. Most men want a car which will always keep going without any expert attention. All the Overland needs is oil. Give it that and the car will practically care for itself.

THE ECONOMICAL PRICE

The Overland has always given more for the money than any competing car. Yet this year—by multiplied output and labor-saving machinery—we have cut the cost 20 per cent.

This year the 25 horsepower Overland sells for \$1,000. It is better than the \$1,250 Overland last year. The wheel base is 102 inches—the possible speed is 50 miles an hour. In hundreds of tests it has carried four people up a 45 per cent grade, starting from standstill.

This year, for \$1,250 we sell a 40 horsepower Overland, with a 112-inch wheel base. And for \$1,500 we are giving all the power, style and appearance that anyone can want in a car. All of these prices include five lamps and magnets.

NO SKIMPING

The \$1,000 Overland is made in the factory which once made the Pope-Toledo—a \$4,250 car. It is made by the same workmen, under the same inspectors and, so far as desirable in this lighter car, it is made of the same materials.

In the past year—while cutting the price—we have doubled the factor of safety. We employ a 5-bearing crank shaft, with bearings ground in—such a shaft is not used in other cars costing less than \$2,000. Our cylinders are cast separately—our transmission runs on angular ball-bearings.

4 models, \$1,000 to \$1,500.

"This Is It" E-M-F 1910 Touring Car \$1250

Here Are Reasons Why E-M-F Company Can Give Buyers Better Value Than Other Makers

E-M-F "20" automobiles are manufactured in two mammoth plants owned by the E-M-F Company and directed by the one head—not assembled from parts made in small plants all over the country.

Here all intermediate parts—makers profits are eliminated. From the pig iron and the raw steel plate to the finished automobile including body and even tops and storm fronts every part save only magnets and tires is manufactured in the E-M-F plant and under the watchful eye of the head of this concern.

To give an idea of the magnitude of these operations is well nigh impossible. Words will not suffice and figures such as one million and a half square feet of floor space convey little to the average mind.

If you ever have an opportunity to visit these plants it will be well worth your while and will be a revelation to you. You are cordially invited to do so.

Only those who have enjoyed a tour of these tremendous factories starting in the foundries where cylinder castings, crank-cases and gear-housings are made; thence through the drop forging department—one of the largest in this country and one of three capable of forging a front axle or crankshaft complete at an operation; thence through the mammoth rooms full of automatic machines whose operation has something weird about it to one unaccustomed to seeing these wonderful machines that seem to think; thence through various departments where component parts are machined, ground, treated and finally the great assembling rooms, can appreciate the economies effected by the superior facilities.

To see the raw material go in at one end and the finished car with polished body and shining brass come out at the other end is a sight that fills the visitor with wonder and admiration. And his greatest wonder is occasioned by the fineness of the work he sees and which he learns is necessary to turn out cars at the rate they are. Absolute accuracy—absolute interchangeability—are essential.

Because of the superior equipment, the financial resources, the splendid organization, the wealth of experience, the engineering skill; the ability to buy materials at prices small for makers cannot touch; and finally by producing in tremendous quantities by the most up-to-date automatic machinery—making every part in the one plant and such plant devoted to the manufacture of but one class model—the E-M-F Company can produce a better automobile than is possible to any other concern in the world at any where near the price.

Over 10,000 E-M-F "20" cars are on the road today in the hands of owners and every owner is boasting. A satisfied owner is the best salesman—that's why the demand for these cars is so great.

You can store your car here, the finest garage in town, for \$3.00 per month.

REED-GAGE AUTO CO.

Both Phones

Typoid Fever Checked.

In India alone the losses to the British army from typhoid fever amount to half a battalion a year. The latest reports furnish proof that the practice of anti-typhoid inoculations in the army has resulted in a substantial reduction in the incidence and death rate of enteric fever among the inoculated.

Plan Washington Home.

The Daughters of 1812 are now planning to build a magnificent structure in Washington as a sort of memorial hall, which is to cost \$200,000. It is expected that this will also be a sort of a home for the Daughters of 1812 who are in needy circumstances and who may become dependents upon the society.

Buried in Her Piano.

A woman professor of music, who recently died at Marseille, France, has been buried in her piano in obedience to her final wish. She gave as her reason for this strange request that the happiest hours of her life had been spent at her piano. Owing to the great size of this original coffin an immense grave had to be dug.
